Further Correspondence respecting the Affairs of Koweit.

PART IV.

No. 1.

Admirally to Foreign Office .- (Received January 1.)

(Confidential.) Admiralty, January 1, 1902. WITH reference to previous correspondence, I am commanded by my Lords Commissioners of the Admiralty to transmit, for the information of the Secretary of State for Poreign Affairs, decypher of a telegram, dated the 1st January, from the Commander-in-chief on the East Indica Station relative to Koweit.

A similar letter has been sent to the India Office.

I am, &c. EVAN MACGREGOR. (Signed)

Inclosure in No. L.

Rear-Admiral Bosanquel to Admiralty.

Trincomuler, January 1, 1902. (Telegraphic.) HAVE ordered "Fox" and "Perecus" to Koweit.

Senior Officer, Persian Gulf, has been directed not to land men. "Pomone" proceeds to Bombay as soon as her services can be dispensed with, on account of an outbreak of beri-beri.

No. 2.

Foreign Office to India Office.

(Confidential.) Foreign Office, January 1, 1902. I AM directed by the Marquess of Lansdowne to transmit to you, for the information of the Secretary of State for India, a copy of a letter which has been addressed to the Admiralty in reply to their communication of the 31st ultimo, respecting the steps which have been taken by the Officer in Command of His Majesty's ship " Pomone" for the defence of the Sheikh of Koweit.

* No. 8.

I am also to incluse copies of a note from the Turkish Ambassador, and of a despatch which Lord Lansdowne has addressed to His Majesty's Ambassador at Constantinople, t recording a conversation with Anthopoulo Pasha on the subject.

> I am, &c. T. H. SANDERSON.

No. 3.

Foreign Office to Admiralty.

(Corb lestra)

Foreign Office, January 1, 1902.

I HAVE laid before the Marquess of Lansdowns your Confidential letter of the 31ster on reason to a reprofest leave and a " and remaile Officer Commanding His Majesty's ship "Pomone," relative to the situation at

I am directed by his Excellency to transmit herowith, for the information of the Lords Commissioners of the Admiralty, the decypher of a telegram which was almost simultaneously received from His Majorty's Ambassador at Constantinople on the same

In view of the information received from His Majesty's Consul at Bussorah, as reported in this telegram, I am to express Lord Lansdowne's hope that the Lords Commussioners will instruct the Officer in Command of His Majesty's ship " Pomone" to deast from his preparations for the defence of Koweit the moment it becomes clear that the place is no longer really threatened by the forces of the Emir of Nepd

I am at the same time to inclose, for their Lordships' information, a copy of a I was per society and area to select a law Malignet

No. 4.

Sir N. O'Conor to the Marquess of Landowne. - (Received January 2.)

(No. 1)

(Teregraphic) P. Constantinople, January 3, 1902. I HAVE received to-day the following telegram, dated the 31st December, from His Majesty's Consul at Bussorah :---

" Last night the Emir was still within 3 miles of Zobeir, but to-day none of his people are to be seen here. This morning a battalion of Ottoman troops, in full marching order, about 300 strong, left for Zobelr, whither the Government Contractor has mont provinces in considerable quantity; he has received orders to prepare supplies for four more battalions, which are to arrive at an early date.

"It is also said that an embargo has been laid by the Government on sailing vessels. receive per Fight ex Esselve a sell receive It may be that they intend to occupy Sevahn on the Zohele-Hafer route, about 6 hours from the former place, and so attempt locally to recover their loss of prestige.

" Four thousand pounds have been given to the East,"

I cannot understand why the Captain of His Majesty's ship " Pomone " landed guns at Jehars, seeing that the Ottoman Government has repeated its assurances to us, and that the Emu's recent movements seem to be leading him away from the neighbourhood of Kowert. It seems hard to believe that the Sublime Porte has given 4,000% to the Emir except to induce him to return home to Nejd. Had this money been given as a subsidy

Inclosure in No. 5.

Government of India to Lord G. Hamilton.

January 1, 1902.

(Telegraphic.) KOWEIT.

Following telegram, dated 28th December, from Kemball :-Following telegram received from Wratislaw to-day :--

Ame, with part of his force, is 15 miles from Bussersh, and in constant conmunication with Vali and Mushr. His agent has cent him with 70 tons of provisions. Sultan has ordered present of 2,000L to be made him from Famine Fund Treasury, which is empty. I hear that Andr himself attacks Kowett after Remazan. Vali and Mushr spend hours daily at the telegraph office, but I cannot learn purport of their commonications

'I think it desirable that reinforcements should be sent by Admiral to Kowen'"

These constant abrum about Koweit seem to justify stronger language at Constantinople than has yet been employed. If the Turks can neither keep Neid in check nor protect Koweit from attack, it is obvious that their alleged authority over both is a farce.

Porte of ned, 28th December prosection of export of present and stated that

Amic had loft for Nejd. O'Conor, however, fearns that prohibition was issued by Vali,
but has since been rescended.

With reference to your telegram 28th December, O'Conor has again made representations to Forte as to proceedings of Vali and Amir. Further, Lord Landowne has warned Turkish Ambassador that, if Porte is unable to control its own officials, we may find it impossible to acquiesce in continuation of status use which leads to recurrence of ineptents such as recent visit of Nakib to Koweit.

Sheikh claims Hafer to be within his territories, and also, I think, Schwan, and although his claim to them is doubtful, he will undoubtedly become very anxious, and probably seek to make terms with Turks. I venture to suggest that Porto should be informed that unless movements of troops are countermanded, we shall have no option but to declare Protectorate.

Towfik Pasha replied that the rumour of an intended attack upon Koweit was entirely without foundation and that the Emir had already left on his return journey

to Neid.

I had, on the 24th instant, informed his Excellency of the news we had received from - val authursties to the effect that the exportation of provisions to Kowest had been , and by the Vali of Bussorah. I did not see the Minister myself as I had only just arrived, and I was unwilling to give ground for some sensational paragraph in the papers by repairing at once to the Sublime Porte, but I requested Mr. de Bunsen to call on my behalf and to tell the Minister that if the news were true it pretty clearly indicated the trend of affairs and the likelihood of fresh complications which would be unpleasant to the Ottoman Government. His Excellency lind assured me that the existing state of things In those parts would not be disturbed nor the Sheakh of Kowest molested. Since then he had been frightened by the visit of a Turkish Nahib, who, under the plea of his the mer character, had the prince out to the highest of the me and all the further and more direct attempt to disturb the status que. Up to date, no order has been received to disperse the troops, and they are now distributed between various villages between Bussorah and Koweit, nother has the Emir of Nejd sent his troops away, nor has the Mushir of Baghdad any idea of returning at present.

It is understood that these movements of the Turks are intended to deceive the British, and to get them to withdraw their shaps and so close the whole incident, with the Sheikh at peace with them, whilst the Turks would watch the first opportunity to secupy Koweit without very much trouble.

FOLLOWING telegram received from His Majesty's Consul, Businesh, dated
to 10 of the 25th:—

Consul General, Bushire, is informed by Shorkh that he has been summoned to appear personally or by deputy to answer suit brought by his nephews in the Civil net of Bussianh, and demands our protection in consequence

n be no question as to the competence of the Turkish Courts, and kely to go by default if the Shockh fiels to put in an appearance. He timbefinitely postpone settlement with his nephews, and, in my opinion, will gain thing by quisting the proceedings. Later on we toght interfere, if necessary, to pose likegal judgment.

Yuanf seems to be quite irreconcileable, and I have failed to come to terms with

h m or even to learn what his terms are."

I moline to Mr Wratudaw's opinion.

The Shorkh can equally well appeal whether he is represented by a deputy or have more chance of succeeding. The suit must be decided by Ottoman law, I fear, as it is one of real estate

Though the action of the Turkish authorities gives me no solid ground for momented, and that summoning him at the present moment before a Turkish Tribunal seems like an attempt to intimidate him.

Captorn Simons to Rear-Admiral Busanquet.

2. The "Pomone" arrived at Koweit at the

"Zuhn"," which came in about two hours afterwards, flying a Turkish Pushu's flag at the time. The guard was turned up in "Pomone" and "Redbreast" (the "Splanz" having the min for Bushue on the 30th), and the usual courtesies exchanged; but I waited to salute until I knew who was on board and if he would visit the "Pomone." The "Zuhaf" anchored about a mile from the English slops, and was boarded by my First Lieutenaut, I icutenaut Hand, as officer of the guard.

S. Licutenant Hand, in accordance with my directions, gave my complements, asked who was on board and his rank, and said I would pay my respects at once and hoped to salute with the proper number of guns later on. He also asked the reason of the

to see him, the Nakib stated that he was flying a Pasha's flag, as he was representing

and could not be stated. He did not want a salute: he was landing at once and could not want for the Captain of the "Pomone's" visit. He was accompanied by the Vali of Bumorah's brother. Licutenant Hand then informed Nakib that I hoped the "Zuhaf" would not attempt to land any troops or armed men, such as a guard of honour, at I have the property of the state of the property of the state of t

no guard of honour was required in Koweit, which was a Turkish place

4. Lecutement Hand then returned to "Pomone," and reported the result of his vent to me; and I proceeded at once to "Zuhaf," but the Pasha's flag was struck, and the Nakib, accompanied by the Vali's brother, was in the boat on their way saliere when I reached the "Zuhaf"; I communicated, however, with the Nakib, said I had come to pay my respects and hoped he would return my vast on board, when I should minte him. I also requested that "Zuhaf" would not attempt to land troops or armed men; to replied that "Zuhaf" had no troops, and if time permitted he would return my vait. He then proceeded on shore, where he has a house, and I returned to "Pomone." The Turkish officer of the guard subsequently returned Licutemant Hand's visit, but the Nakib did not return name; nor did the Captain of the "Zuhaf" (a Commander) call upon me during their stay

5. I did not consider it advisable to shift berth and anchor near "Zubaf" nor to watch her with search-lights at night; but in order that I might be sure she landed no armed men, a careful watch was kept on her by day from the ship, and a guard boat was anchored fairly near her after dark during her stay, returning to "Pomone" before

day light.

6. Next day, the 2nd December, the Queen's hirthday, the ships were dressed; and "Pomone" fired a Royal salute at noon. The "Zuhaf" dressed ship also, but is not a soluting ship, and I sent a Lioutenant to thank the Captain for his courtesy. On the same day the Sheikh informed me that the Kakib had presented him with a letter continuous of the Council of State on a high salary, or leave Kowelt and live elsewhere on a pension given him, and requesting an early reply. The Sheikh was very much upset at this, the second threatening telegram he has received recently from the Sultan, though

his Agent at Bussorah had forewarned him some days before about it; and he had

written on the 30th November by the "Sphinx" to the Political Resident, Bushire, asking if such a message came what he was to say, and if the British Government would help him, and stating that if the British Government did not check and stop the action of the Turks, he would have to join them. The Captain of the "Redbreast" and myself visited the Sheikh, and informed him that he would undoubtedly be supported; but he was much depressed and said that, although he wished for a British Protectarate and to carry out his agreement with the British, he had not yet got any definite assurance from the Political Resident at Bushire, in writing, that the British Government would protect him; and if be did not get one, he would have to make terms with the Turks, whose troops were close to, and of whom he was afraid. Eventually, on my advice, he decided not to reply at once, but to ask for some days to consider his answer, during which a reply to his letter twould arrive, and the British Government cos if he communicated with by telegram and an answer received

and obtained three days' grace to counder his reply, the Nakib at the same time it in him that if he accepted a Turkish Protectorate all would be well, and he could remain at Koweit, some Turkish soldness of course, being stationed there. The Captain of "Redbreast" and I visited the Sheikh on his return from the Nak b, and it was arranged that "Redbreast" should proceed at once to Bushire with a telegram for yourself and the Admiralty, and letters from the Sheikh and myself to the Resident, also a copy of my telegram to you and Nakib's letter. "Redbreast" accordingly left at 1:50 r.m.

with orders to await the Government's reply and bring it over at once.

8. Previous to the "Redbreast" leaving, however, the likelihood of the Nakib changing his mind about the three days or the Government's answer not arriving in tone was discussed, and the Captain of "Redbreast" and I co leavened to get the Sheikh to agree to say, in such a cose, that he could not reply so soon, but must have time to consider, or to give some other evanive reply; but this he would not undertake to do, saying the Saltan would consider it a refusal, and puntil him, in case he was not supported by the British Government; finally, however, he agreed not to make terms with the Turks before the English Government's answer was received, if I threstened to bombard Kowert it he did so, as the Sultan could not then blame but.

9. Next day, on the morning of the 4th December, as I had thought was probable, and possibly due to "Redbreast's" departure, the Nakab sent to any he had changed his mind, and could not give the Sheakh any more time to consider his reply. He wished to leave Bussorah that night, and although the Sheakh again tried to obtain time, the Nakab would not grant it. An appointment was, therefore, made for the Nakib that afternoon at the Sheakh's house; and I again endeavoured, in the formeon, to permade the Sheakh

o give an evasive reply, but with no effect

10. At 2:10 in the afternoon the "Sph ax" arrived with an answer to the Shutka's letter of the 30th from the Resident, who asked me to inform Sheikh that he had telegraphed to the Bestish Gorenment for instructions, and a more definite assurance of support to Sheikh, but meanwhile the Sheikh could rely on the British Government's support for the maintenance of the integrity of Koweit against the Purks, as he had already informed the Sheikh by their orders last August. The Sheikh, however, was not satisfied with this reply, having hoped for an answer in writing from the Resident as to further definite British support; and he consequently refused to undertake to reply himself evanvely to the Sultan's message, but wished to say that I would not let him reply, and as this course appeared the only one practicable to keep him from committing binself, I agreed to it and Captain Phillipps, of the "Sphinz," Licotenant Hand and myself attended the interview between him and the Nakib, which shortly afterwards took pince, and in which he stated I would not let him reply, and I confirmed his statement, justifying my action on the grounds of the Soltan's two threatening telegrams being a violation of his agreement with the British Government to preserve the status quo at Koweit, which called for my interference. The No. y it was a second to the secon francisco de la companya de la compa by the state of the state We have a horas weight to the second

signalman who was making a signal from the shore to the ship, distant 2½ miles, used by permission the Sheikh's flagstaff (the only one there was) and horsted the semaphore flag instead of the Sheikh's, which was observed by the Vali's bother, who asked if the Buttah

[1518]

Bag was horsted already. The circumstance was explained, however, to him, and the Nakob seemed quite satisfied. Another flagstaff has since been put up for signalling purposes. The Vali's brother also remarked that they had got no answer from the Sheikh, which they tame for, and I am inchned to think he was sent to look after the Nakob, the latter being an Arab, and not a Tork, and also a friend of Sheikh Mubarek's.

1. The "Redbreast" returned on the 6th with the Admiralty telegram of the 1th retant, which I rend to the Sheikh, and which gave him great satisfaction; and subsequently the "Sphinx" returned on the 7th with a latter for the Sheikh from the Resident, embodying the substance of the telegram, and which he read to all his

mortpul men.

13. Nothing of importance has since occurred here, but in consequence of this vint of the Nakib, and the proximity of Turkish troops near Bossorab, I am, no already reported by telegram of the 5th December, preparing to defend Kowert, no selection with dhows for 8-pr. and two for sucked for are sent up. I am following on the lines of defence mapped out by and already reported to you by Captain Field in his telegrams of the 27th September and the 29th September; and the Sheikh has made two or three abelter-trenches with his toon, under instructions from "Pomone," in order that they may know how to construct the others quickly if required, the lines for which are all agreed on; but no more are being made at present, and no guns have been landed or armed men; positions for guns have, however, been selected.

14. Owing to the shallow water and sand-hills, and consequent long range of shellfire from ships, the town being unwalled and on the mainland, and the Araba undisciplined, all that could be expected would be to delay the Turks taking the town if they attacked; and only troops or other measures showhere would prevent occupation, as

I have already telegraphed.

As I believe that Turks intend to advance nearer the tee, I think it would be well to send gun beat up the Khor Abdulla and Khor Suhhuyeh (see sheet 73 of survey map of South-west Asia), whence it may be possible to useertain correct position of place and where Turks really are. Question is important, as I believe it possible that a place on the Khor Abdulla may be intended for terminus of German railway. Do you approve my proposal to send gan-boat up these Khors?"

Kemball's proposal seems reasonable. Please telegraph if you agree. It is for consideration whether Turkey should not be pressed to withdraw troops from Kowsit border; so long as they remain where they are, we cannot withdraw our ships.

Sir N. O'Conor to the Marquess of Laurdowns .- (Received February 19.)

(No. 56.) Constantinople, February 13, 1902. My Lord, I HAVE spoken to the Minister for Foreign Affairs in the sense of my telegram No. 14 of the 8th instant, as authorized by your Lordship in your telegram No. 17 of

the 12th instant.

Tewfik Pasha professed entire ignorance, which was shared by the Grand Vizier, as to the occupation of Umkase and Sahwan, the geographical position of which he did not even know. Assuming, however, as I was inclined to do, that they were places where the authority of the Sheikh of Koweit hitherto provailed, he did not dispute my point that their occupation was not in harmony with the understanding between our respective Governments. He promued to ask the Vali of Bussarab how matters stood and to communicate to me his answer as soon as received. If, however, I had any latent feer in my mind that the occupation of these places was directed against the Sheikh and with a hostile purpose, he was most anxious to deabuse me of the idea. He could assure me most positively, speaking as Tewlik Pasna and not as Minister for Foreign Affairs, that the Imperial Government had given up all idea of character board, and I am a to the contract print I was aware, he said, that the Bagdad Radway Company at first proposed to continue their e to Rowert and to make it the terminus of the railway; but, owing to the difficulties that had arisen with us, the Germans feared that it might give use to complications, and, in one way or another, lead to the seizure by a foreign Power of a port or station in the Person Gulf. They had, therefore, taken out Kowert from their programme, but ther had not renounced the idea of abutting on the Persian Gulf, and, when the Ottoman Government asked them to end the railway at Bussorah, they had invariably replied that they must get to the Gulf There was now an idea that England was bent on blocking their across to the sea, and, although he did not know it for a fact, it occurred to him that possibly the occupation of Unkarr, which I described as not far from the abore, was due to the deare to keep a free passage to the sea. He did not suppose that England intended to prevent the railways gerting access to the Guif, and he sincerely hoped it was not the case

I said that there was no reason for this supposition; that up to this moment His Majesty's Government had rused no objection to a terminal station at Kowoit, and I did not know that they would do so, provided the rulway went there with their approval and the consent of the Sheikls.

I told Towfik Pasha that, in any case, the reports of the occupation of the two places I had named was disturbing our local authorities, and that very probably a gon-boat would be sent to Khor V. I the west of matters in as a was non-fort II in your super that the Turkish troops had been witedrawn.

There is an article in the Turkush press, translation of which I have the honour to inclose herewith, which I have reason to believe is based on information furnished by the Minutey of Public Works, and which indicates Kazima in the Gulf of Koweit as the terminus of the railway. This place is, I believe, within the radius of the zone over which the Sherkh holds authority, and, if I am correct in this supposition, I think it would be well that he should, without delay, affirm his nuthority there,

Report drawn up by the Anatolian Reilway Company.

THE new Bagdad Radway will not only be a line of more than local importance, but will in all probability be made the principal highway of communication and correspondeace between Europe, Asia Minor, and the Far East.

In order to secure the transport of the numbers of travellers and the large quantities of mails over this line, it is necessary to demonstrate the advantages of rapid means of transport which the Railway must be able to offer by providing for a service of fast trains; this object can only be obtained by taking the necessary measures for constructing the line in a way which will permit of this special rapid service.

In view of this construction, the speed of 35 kilom,, which is stipulated for in former Concessions, has in this matunes been replaced by new conditions, which impose the maintenance of a speed which will practically be equal to 90, and even more, kilometres per

hour between stations.

It has, therefore, been necessary, in the case of this Concession, to follow the system adopted on the Prussian trunk lines. The concessionaire is called upon to use milks weighing 37 kilog. 240 grammes per metre, instead of 30 kilog.; the tails, of 12 metres in length, are to be of 58 kilog. 300 grammes, instead of 50 kilog.; in weight, and they must be fixed on to ten steel sleepers. The method of fastening the rails to the sleepers by means of chairs, and the strengthening of these fastenings, and which have not been adopted on other lines in the country, are to be used in the building of this line, and, in fact, the general construction will closely follow the Prussian system in every detail. It is also necessary to note that, besides the depth of bellast suppliated for in the "Cabler des Charges," millions of extra cubic metres of sand, gravel, and stone will have to be used to cover the increased breadth of the earthworks of the permanent way. The radu of all the curves have been increased from 275 to 500 metres, and the gradients have been reduced to 18 millims, from 25 millims, and all bridges, points, &c., are to be very solidly constructed.

The engagements entered into by the concessionnairs to establish an express service of trains over and above the ordinary service stipulated for in the Convention, will necessarily involve an increased expenditure, both in the purchase of heavier and more costly foromotives and carriages than those at present used, and also in the increased consumption of fuel.

The cost of transporting building material either from Constantinople or from Bussorah, over long distances, will also involve an expenditure which will bear no compares to that incorred in the long it was bounded in the long it was bounded in the long of th

along the whole line,

Apart from the very heavy expenditure in wages during the construction of the railway, it will be necessary to foreste great difficulties in procuring workmen, who will not easily be found in some of the parts of Mesopotamia; continual interruptions will undoubtedly occur, owing to the inability of the men to work during the extremos of best and cold

It is no story start to note that the made from London visit operation will reach Bases sub. Bondary in ten days twenty-times and a rain again, which there is by way of the Suez Canal will take fourteen days anteen hours. Thus, allowing for a six hours' delay both at Constantinople and at Kamma, the time gained by the Bases route will be equal to three days and sixteen and a-balf hours. Thus calculation of time is based on the present rate of speed of the fastest mail-boats yet built. It is therefore to be foreseen that unless the Steam-ship Companies who are angaged in the truffic do not considerably raise the rates of passage and transport of mails, they will be unable to make any attempts to build vessels of greater increased speed than those at present in use.

The rates at present charged by these Companies are considerably in excess of those which the Bartist I way will along the termination of the present of the second of those which the Bartist I way will along the termination of the second of

portion of exnal traffic will most assuredly pass over the Bagdad line.

The traffic will be very great and the revenue to be derived will necessarily be very important, and it is therefore essential that this redway should be constructed on lines which will enable it to cope with the demands which will be made. This traffic will also pass over the last of the Cristian Kanway Company, so that the Constantian pre-Bellova section of 562 kilotal, in which the Government has a direct interest, will profit considerably.

Amongst the concessions which the Company has made, it will suffice to mention the flowing:—

The fares for soldiers, officers, and gendarmerie have been reduced from a third to a fourth, and soldiers are allowed 30 kilog, of baggage free

Facilities are to be given for the construction of telegraph lines by the Government.

Military sidings are to be provided by the Company.

The Company undertakes to build, at its own expense, the parts mentioned in the Convention.

The personnel to be employed is, as far as possible, to be of Turkish nationality, and the Company undertakes to establish institutions for the instruction of employés in the working and management of the different branches of the railway service.

(Telegraphic.) India Office, February 25, 1902 TURKISH Government complains that British gun-boat has placed three staffs on mainland opposite Island of Ajeir, and made demonstration along coast. Also that M thank is in collusion with and inciting Arabs to attack Katif, and has cut road between Bussomh and Nejd (see my telegram of 8th February, which was based on Wratislaw's report to O'Conor of raids into Neid by son of Bin Paisul and Saleh Abu, presumably with Mubarak's connivance). The Turks' complaint of survey of their coast by man-of-war perhaps refers to operations of "Investigator," which might be directed to use caution and avoid minunderstanding. O'Conor observes that the other complaint against Shrikh's counivance implies our predominant influence, and deserves to be noted and acted upon.

A letter had been received by me from Enis Pasha, a former Walt of Bussoralt, in which he had informed me of the order received from the Sultan to the effect that the matter should be inquired into by some well-known men of Busserah in the presence of myself and the opposite party. I had accepted this course and had written to the Wali accordingly, but the opposite party did not agree to it, because this object was merely to cause

Later on Hamdi Pasha and Mohsin Pasha, joint Walis, had written to me on the subject, and I had expressed my consent, but the opponent refused. Hanra, Pasha and Molesp Pashs had then written to me about this refusal, and this letter is in my possession and will be produced with other letters when necessary. At present I have received 4 letter from the Kazi of Bussomb which is due to their (the opponents) intrigues and to the county of the Turks on account of my having placed myself under your pro-

My Bussorah agent wrote me after my letter reached Bussorah that they tibe authorities) intend to appoint a " Vakil Musakhar" (any person to represent an absent party in a law-soit) and give a decision against me; and the present Walt had telegraphed to Constantinople asking for instructions as to what he should do in case the Kari's Court thould issue an order against me and ask it to be served on me, as I had placed myself under British protection.

This is what has happened. I request you to keep your eyes on my property in Busserah and protect it from spoliation and arbitrary action. This had been arranged with your predecessor. I am willing to abide by the right course,

I HAVE the hunour to acknowledge, with thanks, the receipt of your letter of the 4th instant, forwarding copies of a letter, and its inclosures, received from Sheikh

It is evident that the Turkish authorities intend to use the claims of Mubarck's nephews as a means of exerting pressure upon him, and unfortunately his position is in this respect very vulnerable. The Fao property is extremely valuable, and is situated entirely within the jurisdiction of the Turkish Courts

I have made cautious inquiries at the Land Registry Office, and it appears that the Fao property is not registered there at all, and that the modern title-deeds now

issued have never been granted to its owners.

In old times the Cadi used to grant title-deeds ("bojet") of a sort, and this appears to have been done in the present case, but so long ago that I have been unable to ascertain in whose name the property stands. Doubtless the "hojet" is in Muharek's In this case, the property would descend to all the brothers or their representatives per

It was, I believe, Mubarek's idea that this should have sufficed to satisfy their claims; but the fact that they have succeeded to their father's private estates does not appear a just obstacle to their receiving a share of the family property.

in Mubarek's letter of the 31st October, 1901, to Abdul Latif Pashs, he seems to rely in the part distinction of the community in the eyes of the Lathian Constituents. a chis awa former position of protegé, ignoring the fact that the position is now reversed

In conformity with the instructions of His Majesty's Ambanador at Constantituple, I am undeavouring to find out from Yuanf-el-Ibrahim what terms would be accepted in amacable settlement of the dispute; but up to the present I have only been able to elicit from him accusations against Muharek, and no proposals, reasonable or otherwise

No. 76.

Conmit Wratislaw to Sir N. O'Conor .- (Received at the Foreign Office, March 10.)

(No. 6. Confidential.)

Sir, Bussorah, February 8, 1902.

IN conformity with the instructions contained in your Excellency's telegram No. 7 of the 4th February, I have the honour to submit a Report on the extent of Sheikh Mubarck-el-Sabab's landed interests in this vilayet, and of the legal proceedings to which they have given rise

At the time of the nurder of the late Sheikh, Mohammed Pasha-el-Sabah, there were five entates belonging to the El-Sabah family of Kowelt, situated respectively at Fau, Sofieh (within the Fao district), Kutemein, Gherdian, and Ajerawiyeh (Aboul Kassib).

Ill are now freehold (Mulk), though the Kutezzem estate was originally "Mirich." Their estimated revenues are as follows:—

Pag								0,000
God als	14	14	44	2.0	1.0		3.1	
catalylati FP	44	10	4.1	8.6	4.5	4.6	9.0	1,120
2 PI								1
								4 14"
A rime of								ž.
	Total							10.160
							P-0	

The above revenues are given me as the net receipts, but without deduction of the Government tax. I am inclined to think that the values of Gherdilan and Ajerawiyeh are over-estimated

Kutersein, Cherdian, and Ajerawiyeb were registered in the land registry office at Business in the name of Shiekh Mohammed-el-Sabah. The estates at Fao and Sofich were not so registered, having been acquired before the office was established. I was assured at the registry office that they were held in virtue of a Hojet-el-Kadi, or title-doeds granted by the Kadi, but Mubarek's legal agent here states that this is not the case. It seems very unlikely, however, that no documents should exist to prove the except of such valuable estates.

the persons entitled to a share in the above properties appear to be Mubarek and his brethers or their representatives. These are Mubarek, Mohammed's representatives, Jorrah's representatives, Jaber (who is with Mubarek at Koweit), and Hamoud's representatives (who are also at Koweit; Hamoud was killed in battle with Ibn Reshid last year).

There is also, I believe, a lunstic brother with Mubarek who does not seem to count. Not does anyone appear to raise any claim on behalf of possible sisters. If, therefore, the family estates are to be divided equally amongst the brothers, it would seem that Mubarek's side should get three-fifths, and the opposition, s.s., the children and widows of Mohammed and Jerrah, now in Bussorah, two-fifths. A complication is, however, introduced into the question by the fact that Kutezzein, Ghordilau, and Ajerawiyeh were registered in the name of Mohammed-el-Sabah, and so are now the property of his heirs alone according to Turkish law, and have been duly transferred to their names. The said heirs also claim their share in the family property at School Factor of Factor and Factor of the said heirs also claim their share in the family property at School Factor, the said Factor of Fac

I be see, however, that Mubarck asserts that these three estates, though registered in M. in ed's name, were bought with family funds and should go into the mass, and I am informed that a dispute arose concerning this point during Mohammed's lifetime, and was finally settled by a deed drawn up through the intervention of Yussuf-ellbrahm. If so, Muharck probably holds the document, and should produce it.

After the murder of Mohammed and Jerrah, their heirs sought asylum in Bussurah, and ever since, in conjunction with Yussuf-el-lbrahim, Mohammed's brother-in-law, have been moving the Turkich Government to interfere with a view to the distribution of the property. Yussuf, however, was made an outlaw on account of his abortive attack on Kowett, and Muharek, until recently, was in favour. So the nephows made no progress in the prosecution of their claim. They were not even able to obtain possession of the Kutezzein estate, which Muharek still administers, and the Law Courts were forbidden to forward the soit they attempted to institute. An Iradé of the Bultan, however, ordered that an imparisal Commission should be appointed to settle the matter, and such a Commission was, in fact, named. The claimants refused to agree to this means of solution, nor, so far as I am aware, did Muharek ever express his formul consent, though he now relies on this Iradé as a bar to proceedings in the Law Courts.

Recently affairs have assumed an entirely different aspect. Mubarck is out of favour, while Yussuf-el-Ibrahim is in. Sabah and Saoud, the sons of Mohammed, instituted a smit before the Civil Court of Bussorah for the possession of Kutenzein (they are already masters of Gherdian and Ajarawiych), and an officer of the Court was sent to Koweit to serve the summons on Mubarck. The latter declined to sign the recent or to take any notice of the proceedings, but service was proved by the official who carried the summons; a "Wakeal Musakhar" was appointed by the Court to defend the absence's interest, and the case was rushed through and an order made that the plaintiffs should be put in possession of the estate at Kutezzein.

Besides the above-named estates Muharek has seized property at Solin bull iging to Yusef-el-Ibrahim. Sobieli, however, on the Knor-es-Sobieli between Bubian Islan and the mainland, is probably within Koweit territory.

Any friendly settlement of the points at issue is rendered doubly difficult by the fact that a blood feud exists between the parties, the murderers of Mohammed and Jerrah having undoubtedly been instigated by Mubarck

Sir, "Highflyer," at Bombay, February 20, 1902.

IN forwarding the inclosed letter from the Section Officer in the Persian Gulf, and with reference to previous correspondence on the subject of the state of affairs at Kowert, I have the henour to offer the following remarks:—

Captain Pelham's letter shows the encounchments made by the Turks on the territory claimed by the Sheikh of Koweit, and explains the statement made in my telegram of the 26th ultimo, that the main difficulty which now exists is the precise limits of the Sheikh's territories.

Naval officers under my command who have recently had opportunities of informing themselves on the spot have, in conversation with mo, expressed doubts as to whether we can rely on Sheikh Muhamk's fidelity to us. He is a interest Chief, surrounded by enemies, who has been brought into prominence by the fact that the geographical situation of his country has made it of positical importance. He has ranged himself openly on our side, and he is convinced that his having done so is the cause of all his recent troubles, and that, moreover, he loses instead of guns by our

There can be no doubt that for some time past he has been put to considerable expense in keeping a large number of armed men ready to take the field, and he complains of the difficulty he experiences in learning the views of, and communicating with, the British Government. This means that he is anxious to have a Representative of Government at Koweit, and the presence of such an official would, no doubt, increase his prestige and feeling of security. I am informed that a grievance to which he frequently refers is that we "do much more for Habrein" than for him. He seems to be impressed with the idea that if the British Government continue to refuse him a formal Protectorate, the only way out of his difficulties is to go over to Turkey, and, in this connection, it is perhaps worth while noting the fact that he possesses some valuable date gardens in Turkish territory at Fao

That the difficulty of a clearly defined boundary of Mobarak's to it ty sides is appreciated by His Majesty's Government is indicated in the accompanying copy of a telegram to me from the Government of India, and, until it is removed. It is it to it because the form of the station, in order that a sufficient force may be available for the moral support of that Chief.

5. The Turks are still at Safwan and Em-Kasr (Em Gussur), but reported from Bussorah to have advanced to the Soubieh, near Koweit. Sheikh Mubarak has no intimation of this last move so for, but has had information that they are preparing to occupy Jeziral-Bubyan, an island just opposite Koweit and in sight of it. This is bringing them right down to the shores of Koweit Harbour.

d. News arrived the 20th instant here that Ameer Abdul-Assiz-bin-Rashid himself was seven days north-west from Koweit engaged at El-Udian fighting the Anase tribe. the appears to be trying to fight his way to Meshed-Ali (or Nedjel). Abdul Assix . . The Restourn Arabs are all reported to be joining forces against Abdul-Assiz-bin-no trouble here for some time to come unless backed by a Turkish force.

7. His Minesty's ship "Sphinx" left yesterday for Bahrein and El-Katif, "Lapwing" at Misseat, and "Perseus" leaves to-day, in accordance with your telegram of the 25th January, for Bombay. "Redbreut" remains here keeping up communications. The Commander-in chief states in this telegram that the Sheikh of Koweit, acting on the advice of the Resident in the Persian Gulf, is sending forty men immediately to Hagareja in order to forestall the intended Turkish action, which is described as a considerable encroachment of a serious nature

It appears to Lord Lansdowne that the action of the Resident in thus advising the Sheikh is of questionable expediency, and that the reported "intention" of the Turks to advance to Hagnieja can scarcely be described as an encroachmenal.

(33 Constantinople, March 16, 1902. (Terrin tar) P KOM, IT Owing to the interruption of line, I have only received to-day Mr. Wratislaw's reply of the 7th instant to my request for his opinion on the Sheikh's

rights to Umkasr and Bubian, which is as follows:-"Your telegram of the 5th. Survey of channel shows Unikast to be most important, and even better adapted than Koweit for a railway terminus. But I fear that washe it is highly desirable to secure it, the Sheikh has only a very shadowy claim to it. It has been ununhabited for many years since he exercised any authority there, even if it be true, as he asserts, that, in the time of his grandfather, it was occupied by Koweit people. On the other hand, the Turks seem to have little claim

beyond present occupation, and Sheikh says Koweit makes use of the place as port for

Burneth "His claim to Bubian is on a different footing, and is, in my opinion, good. For some months every year regularly it is used as a flahing ground by Arabs acknowledging his authority, and by no others. Men have been sent by Sheikh to occupy Sobich, and he has informed Senior Naval Officer that it was not his men, but Bedouins the Lickesh subjects who threatens the cork site of san ansar. His statement seems to be unreliable in general, and hardly supports his claim, though Arabe themselves and that they recognized him."

The real motive of these proceedings was, as he desired to inform me confidentially, agreety that, as difficulties were raused about extending the Bagdad Raulway to Kowest, a deboache might be kept under their own protection. He believed that nothing more would be heard of such incidents if the English Syndicate decided to

Sir,

WITH reference to my despatch No. 6 of the 8th instant, I have the honour to report that no steps have yet been taken to serve on Mubarek the expanse judgment randered by the Civil Court in the matter of the estate at Kutenzem. On the contrary, as reported in my telegram No. 17 of the 13th instant, the Vali this week summoned the sons of Mahommed before him and asked them to agree to the arbitration of a Commission in accordance with the Sultan's Iradé of 1898. The young men drebned, and on the Vali's asking the reason replied that they wanted revenue for the murder of their father.

I understand that the Cadi has been ordered to stop proceedings for the time boing in the Civil Court over which he presides.

I learn from His Majesty's Acting Consul-General at Bushire that according to Mubarck the heirs of two of his uncles (whom he claims to represent) have right to also represents. If this is correct, the distribution of the property will be an extremely complicated process.

ING the course of a prolonged conversation with the French Ambassator to day, he referred to the attitude of the British, or, as he put it, the Indian Government towards other Powers in the Persian Gulf. He regarded the protonness of the Indian Government as excessive, and attributed to them a descrete treat to Gulf as a British lake. He thought it would be impossible for us to persiat in a policy of this kind. The Austolian Railway would have its terminus at some point upon the Gulf, which would then become a loghway for international minimum, and we must look the prospect in the face.

I replied that his Excelle by was marken in attributing to us or to the Government of India a decre to exclude the trade of other metries from Persian various Dur attende towards the Anatolian Radway probability of the Government of the Government of the Government of the him, but that our supposed to be expected unless we were given a share at least equal to that of any other Power in the capitalization of the Company, in its in the condens for materials and equal ment.

M. Cambon observed that he could say confidently that there was no degree deay sufficient opportunities to British capitalists, but that when the project had be mosted in financial circles, the overtures which had been rande had met with a very sold response in the City.

I replied that that imght be so, but that the question was still under discussion. I went on to say that whilst these were our feelings with regard to the count.

His Excellency having referred to our "mefiance" of Russia in those regions, I said that it had been my carnest wish to arrive at an amicable understanding with Russia in regard to Persian as well as Chinese affairs, and that I had made a "tentative" in that direction, but unfortunately without success.

The above conversation, on both sides, was quite informal, but it is as well that I should report the substance of it to your Excellency.

18 continuation of my telegram dated the 21st January, 1902. I have the honour to forward copy of a letter from Sheikh Mubarek, dated the 22nd idem, brought over by His Majesty's ship "Sphing." The Senior Naval Officer in a telegram to the Naval "t-in-chief states that Umkast is about 40 miles north-north-east of Koweit nor Abdulla, which separates the Island of Babiyom from the mainland on the right bank of the Shat-el-Arab

It will be noticed that the Sheikh claims the place as within his territory, and I have telegraphed to Mr. Wratislaw to ask if he can find out if the Sheikh's assertion is correct or not. I have also the honour to state that Mr. Wratislaw telegraphed on the 23rd that it was reported that the Turks had moved from Umkasr to Soubich, which, from information available here, appears to be a village on the Khor Subbiyya, which runs into the sea near the north-east corner of the Bay of Koweit.

This movement has not been confirmed yet, but Sheikh Mubarek will, no doubt, inform the Senior Naval Officer if it is true before the gun-boat comes over for the mails next week.

No. 94.

The Murqueer of Lansdowne to Anthopoulo Parha.

Your Excellency, Foreign Office, March 20, 1902

I HAVE the honour to acknowledge the receipt of your note of the 14th instant, calling attention to reports which have been received by the Sublime Porte in regard to affairs in the neighbourhood of Koweit

These reports are to the effect:—
That officers of His Majesty's navy have placed three flag-staffs at Djeziré close to the landing-stage at Adjiri (Ojair) and made demonstrations on board a steam-boat in that neighbourhood.

That the forces of the Sheikh Mubarek have intercepted the communications between Bussorah and Nejd with the intention of invading Katif, and have cut off the Turkish detachment at Kast, while a British man-of-war was anchored off that place.

That His Majesty's Consul at Habrein has given a public warning of the presence of Arab tribes at Adjiri (Ojair) in consequence of which trading vessels have been obliged to disembark their cargoes at Bahrein.

Before I received your Excellency's note His Majesty's Ambassador at Constantinople had already informed me that a similar representation had, towards the end of last month, been made to him by the Grand Vizier, who had requested that orders might be sent by His Majesty's Government to prevent such occurrences and to restrain the action of the Sheikh of Koweit.

I took immediate steps at the time to have enquiries made into the circumstances complained of, and from the reports which have been communicated to me by the Secretary of State for India I am now enabled to give your Excellency the

With regard to the proceedings in the neighbourhood of Adjiri (Ojair), it appears that in the course of operations conducted by a surveying vessel of the Government of India three bamboo poles without flags were temporarily placed as marks on the coast north of Adjiri (Ojair) for the purpose of a survey by triangular observations connected with Rahrem, and that the demonstration referred to by your Excels is to be explained by the landing of an officer from the ship to make the observations becomes to complete the triangular connection between the coast and that island It will be observed that these operations were entirely confined to scientifle in Spations of general interest and to a particular portion of the coast south of Katif

The reported action of the farces of the Sheikh of Kowelt for the purpose of intercepting the communications between Bussorah and Nejd would appear to be founded on the circumstance that certain radis have been made by Arab tribes on the territory of the Amir of Nejd. His Majesty's Government had already warned the Sheikh Mubarek against encouraging any such proceedings, and they have now been assured by him that he has had nothing to do with these enterprises. The recent visit of one of His Majesty's thips to the neighbourhood of Umkar was, I need havily assure your Excellency, entirely unconnected with these raids

On the other hand, His Majesty's Government receive constant reports of the advance of parties of Turkish troops to places in the vicinity of Koweit, some of which indeed are actually inhabited by subjects of the Sheikh. These movements cannot fail to keep the country and the Sheikh himself in a state of unrest and alarm, and His Majesty's Government feel that they have reason to complain of them both as 'ming departures from the status one which the Turkish Government has undertaken to respect, and as interfering with their loyal endeavours to induce the Sheikh to abstain from himself disturbing it

[1,019]

I have received no information with regard to the reported action of His Most of Common and American that the country near Offsir was in a disturbed condition, he would appear to have only taken a necessary step for the assistance and protection of inding interests on the coast.

THE attuation at Kowert is becoming more and more embarrassing, and the time has some for looking it in the face.

We have saddled auracives with an impossible client in the person of the Sheikh I apparently an intrustworthy savage, no one knows where his possessions begin and out, and our obligations towards him are as ill defined as the boundaries of I. Principality. We have distinctly announced that he does not enjoy British "protection" on the other hand, we once made him a present of 1,00%, and promised him our "good offices," whatever that may mean. When we made this promise we were, I feel an doubt, thinking of Koweit proper, if there is such a thing, and not of Boobyan or other outskirts over which the Sheikh has rights of one sort or another. We have up to the present sheltered ourselves not unsuccessfully, during our discussion with the Tarks on the one side and foreign Governments on the other, behand the plausible minouncement that we desired to maintain the status quo in Tegard to Koweit. But I doubt whether any one really knows what the status quo is. We have, at any rate in my opinion, no right to tell the Turks that they may not move troops for the purpose of putting down a rebellion in the Nejd region, or that they must not look out for a mitable terminus of the Baghdad Railway for fear of disturbing the

I should be ruelined to say that our engagements to Koweit do not extend beyond the district adjoining or close to the bay of that name, and to endeavour to obtain the rubbenion of the Porte and of the Sheikh to an approximate definition of that district in a seven larger sum.

I would make it clear to the Turks that we do not want to stand in the way of an armagement under which the terminus of the line might be placed at some spot other than Koweit to their advantage if they can make anything out of it.

REFERRING to your telegram No. 35 of the 16th instant, we should, I think, endeavour to arrive at a frank understanding with the Turkish Government on the juestion of Koweit. We have no wish to encourage the Shelkh to break away from is relations of allegiance to the Sultan, and we have acknowledged that Koweit is a

part of the Ottoman dominions; but we are bound to give Mubarak our support to are unwilling on that account to be drawn into a sense of irritating discussions in regard to the movements of Furkish forces to places in the vicinity of Koweit to which

We do not desire to place obstacles in the way of the Bagdad Railway being prolonged to the Persian Gulf, or to prevent Koweit, or any other spot which may be considered more convenient, being selected as its terminus. Our assistance must, wever, be conditional on British capital receiving a share at least equal to that of any other Power as regards orders for materials and the construction and management of the line. We have a right to claim this, both in view of the fact that it will be becoment to obtain our co-operation for the financial arrangements on which the undertaking depends, and because Great Britain is the Power which has the predominant interest in the European commerce of the Persian Gulf, to whose exertions it is due that the commerce of the world has access to those waters, and on whom in the future the duty will fall of protecting commerce as it passes through the Gulf by the new trade route.

I request that you will speak in this sense to the Minister for Foreign Affairs and the Grand Viner, pointing out to them that our co-operation will be necessary for strangements with the Sheikh and his tribesmen in order to secure their goodwill, and also for restraining princy or plundering by others in the Gulf, whether the terminus of the railway be fixed in the actual territe years to a secure the community of the railway be fixed in the actual territe years.

Les been entirely popular in Koweit, and there is Turkish party in place a most unburner will increase as Sheikh's position becomes more difficult. He is, I believe, both ready and anxious to remain loyal to us, but as matters are now going he may be forced to make terms with Turks, who are apparently working with this end in view. Turkish thereby affected, and his authority at Koweit weakened. Further, it will be essential, so far as I can see, for our ship of war to remain indefinitely, if our hold over Sheikh is to be maintened. It is advisable that I should receive instructions whether Kowcit shore of Khor Subyeh may be considered within Sheikh's limit. Sheikh has been advised not to act, the pass Tork and the Lagrange, which is practically same place as Subyeh, but to leave settlement of the question of his frontier with us. Subyeh is seven miles distant from mouth of the Khor, and we may, in view of recent decision, not consider ourselves able to maintain Sheikh's authority over it. Entrance to Khor Subych is not navigable for ships."

These telegrams crossed your telegram of 14th. Your telegram of 17th received. It is serious enough that he should lose Bubian Island, but if Hagareja and Subyeh are to go too Kathama Boy will follow suit, and Turks will be in immediate vicinity of

Koweit. In these circumstances Sheikh will have no alternative except to make terms with Turks, and our entire policy will be nullified. Advance of the Turks is unquestionable violation of status quo, since they have never before been in place now occupied. Should we not, therefore, inform both Turks and Sheikh that Koweit shore of Khor Subyeh are considered to be within Sheikh's limit, and that encroachment will not be permitted?

I have called the very serious attention of the Minister for Poreign Affairs and of the Grand Vizier to a report telegraphed by Mr Wratislaw on the 25th, that the Turks intend to occupy Sobieb shortly, in spite of presence of Sheikh's men, and have urged that orders to prevent any movement of this kind be immediately sent.

I heard also from the thuist Vizier that the observations strongly deprecating any further encroachment on the Sheikh's territory, which I made to him on the 25th, in reported by him to the Palace, but the Sultan's reply was not satisfactory. Another and more urgent report will be presented to His Imperial Majesty to-night by his Highness.

WITH reference to my telegrams Nos. 18, 19, and 20, of the 19th, 23rd, and 24th instant respectively. I have the honour to report that the account originally brought by Turkeli wildow from Safran of a college between the troops at Universal

by Turkish soldiers from Sefwan of a collision between the troops at Umksar and armed Araba proved to be incorrect. The following is what the Vali who sent the Tabour Aghasa to the spot to enquire states to have occurred:—

About ten days ago a British gun-boat was observed to be in the Khor, the channel between Buban Island and the mainland, of which the northern portion is known as Khor Abdullah, and the southern as Khor-es-Sobieh. Later a party was seen to land and take observations, and the officer in command of the troops at Umkner thereupon advanced to meet them. He inquired what was the reason of their root, and the naval officer replied that he wished, if it were permitted, to call on a considerable body of Arabs who had collected, and who apparently thought that the Rughalinian were being carried off in custody, raised the war-cry, which is their usual preliminary to an attack. The Turkish soldiers stood to their arms and trouble at first appeared immunent, but finally all ended peacefully. The British officer paid a record friendly call on the Turkish Commandant the next day

When the Tabour Aghassi arrived at Umkasr the British ship was just starting,

of His Majesty's ship had let him know through the Consulate that he wished to strivey the locality in question, when his Excellency would have arranged for a fitting reception and there would have been no risk of unpleusantness. Of course that old taxed Mubarck was at the bottom of it. His Excellency added that his himsted vocabulary was quite inadequate to describe the crafty and intriguing character of the Sheikh of Koweit, whose one object was to embroil Turkey with Great Britain. 500 men and a couple of guns were enough to obliterate him, but really he was not worth it.

Besides, the two Governments could settle all pending questions between them-

The Vali, who himself broached the subject to my Dragoman, who was calling on him about other business, further requested him to tell me that he had been much sakib, who was accompanied by Nedgib Bey, his own brother. The Captain of a British man-of-war laid, he asserted, caused the Turkish flag to be lowered and replaced by the British flag so long as the Nakib's stay lasted.

He, the Vali, naturally reported the matter to Constantinople, but on official semonstrances being made the explanation was given that the exchange of flags was

Bushire, February 6, 1909.

I HAVE the honour to forward, for the information of the Government of India, translated purport of two letters received by me from Sheikh Muharek, of Koweit, in one of which he reports that Abdul Aziz Ibn Sacod, the soo, I believe, of Abdul Rahman bin Feysol Ibn Sacod, has taken persession of Riadh; while in the other letter he reports the latest nows of Ibn Rashid's whereabouts, and his intention to attack. If the news of the capture of Riadh is true, as I believe it is, it would seem that the Emir of Neid will have other things to think of than an attack on Koweit.

(After compluments.)

ON the 10th Shawal (30th January, 1902), authentic information reached me regarding Abdul Azia Ibn Sacod and all the Sacod people, who are near a place called Kharaj, which is near Hass. Riadh belonged to them. They have captured Riadh and killed Ibn Riadhd's man, who was acting as his Governor at Riadh and Aridh. They have also killed many of Ibn Riadhd's dependents, and taken charge of the fort at Riadh. The tribes of the south are gathering round him (Abdul Azia bia Sacod), viz., Downsir, El Murra, Ejman, and the inhabitants of Nejd and they have started right the wall round Riadh, which Ibn Riashid had demoisshed. News has also the Anja that the people there are making preparations to fight Ibn Bashid, that the inter is at present near the boundary of the Dhafeir country, five days distant from here. On account of your good graces I am resting quiet with my people and my tribus.

I HAVE recoved news from a person who has just come from where 1bn Rashid.

He also stated that the whole of Ibn Rashid's following belongs to the Shummar this, that he intends attacking my tribes, who are near my territory; that he has given out, "Mubarek has gone over the beginning the latter have stopped a memory ackness the stay it is a many tribes.

as the Turks do not prevent me, and want me to destroy Mubarek's tribes, so that note may remain with him. If the English made inquiries from the Turks, and the Turks wrote to me, I would make excuses, and say I have done nothing."

This is the arrangement which exists between Ibn Rashid and the Turks. The news is correct, because Schood, one of the Shnikhs of the Muteir tribe, had heard it from Ibn Rashid eight days ago, and he has repeated it to me and the Captain (Senior

Naval Officer). I have now told my tribes to mobilize near Jahra.

I HAVE the honour to report that the Assistant Political Agent at Bahrein informs me that a letter addressed to the Chief of Bahrein by the Emir of Nejd was brought to Barein by Saad-ul-Hazomi, alluded to in Mr. Gaskin's letter, which formed the inclosure to my letter No. 12, dated the 18th January last, to your address. The letter, which was shown by the Chief to the Assistant Political Agent, contained the usual compliments and inquires after the Chief's health. It seemed to me that the receipt of this letter might give the Chief an opportunity of communicating with the Emir of Nejd, and I have accordingly instructed Mr. Gaskin to suggest to the Chief that he might, in his reply to the Emir's letter, advise him to dense from boatslities and make terms with Sheikh Mubarck, who is quite ready to listen to any

British capital should receive at least an equal share with that of any other Power. This condition is claimed because British financial co-operation is necessary, and Bruish the treat in the commerce of the Gulf is predominant. British efforts in the past have ad the trade of the Gulf, and must safeguard it in the future. To scente the goodwill of the Sheikh of Kowert, and to restrain piezey, British co-operation will be required, whatever the points at which the terminus of the rudway may be located

WE do not understand the policy of His Majesty's Government regarding Kowert indicated in your telegram of 20th March. The position hitherto taken up was defined to to be a second of practical independence; see also O'Conor's despatch to Lord Lansdowne edgment of Koweit as part of Ottoman Dominions? Again, what eneroachment and where it is a later to be a later of the Adams of Turkish troops on the Koweit side of Khore Sabish? Since status quo is in danger of being whittled away, and the above questions may assume practical importance at any connect, we shall be grateful for more explicit instructions.

(Sucret)

Foreign Office, April 8, 1902.

I HAVE land before the Marquess of Lansdowne your letter of the 3rd instant, inclosing a copy of a telegram from the Viceroy of India in regard to Kowert.

It appears to Lord Lansdowne that the Viceroy has not fully apprehended the meaning of the instructions sent to His Majesty's Ambassador at Constantinople in his tologram No. 54 of the 24th ultimo. The Viceroy seems to be under the impression that Sir N. O'Conor was to announce, as a new deporture, the admission by His May Government that Kowest formed part of the Ottoman Domini

No new departure was, however, intended. What was contemplated was that Sir N. O'Conor should, on behalf of His Majosty's Government, begin by the admission, not by any means made by them for the first time, that Koweit is within the Turkish Empire, with all the qualification upon which His Majosty's Government have throughout insuited as to the unsubstantial character of the Sultan's anthority over the locality, and the reality of the "large measure of practical independence" which they have always claimed for the Sheikh. No new acknowledgment of the Sultan's authority over Koweit. was intended, and it will be seen from the inclosed copy of a despatch from Sir N. O'Conor ! that, in explaining to the Grand Vixier the views of His Majesty's Confact, stopped short of referring to Koweit as being within the Bult ... a deminion.

Lord Lansdowne sees no reason for receding from the position taken up by His. Ambamador at Berlin, No. 312 of the 12th September, 1901, but he considers that they could searcely support the statement made by Sir N. O'Conor in Lis despatch No. 342 of the forth Register to Table of a state of a second Kowoit. His Majosty's Government have repeatedly made admissions inconsistent with the statement.

If the Secretary of State for India concurs in these views, Lord Lansdowne would suggest that they should be expansed to the Viceroy in some detail by telegraph.

His Excellency might be further informed that His Majesty's Government have no denier to see the status que at Koweit "whithed out of existence;" that they wish to preserve for the Sheigh both his privileges and his territory, but that these, particularly the latter, are unfortunately not sufficiently defined.

First Hot Majesty's flovernment desire, firstly, to avoid being entangled in irritating ter upon doubtful points, and, secondly, to have it understood that their rights and 1 e Parsian Gulf do not depend upon their shadowy connection with the Sheikh, i. , other and broader considerations, and that, in order to entablish their class to have a voice in such questions as the location of a radway terminus at a particular point on the shore of the Goif, it is not necessary to begin by proving that that point falls within the limits of the territory of Kowett

Finally, that, as a question of practical politics. His Mojesty's Government would result a Turkish advance on the Koweit side of Subiyeh,

" For," at Kowest, Februar In trination of my telegram of this date. I have the honour to include a letter from Commander Kemp relative to his visit in His Majesty's thip "Sphinz" up the Khor Abdulla.

Previous to his sailing to ascertain the exact positions occupied by the Tucks on the sor Abdulla, I directed him, confidentially, to observe, as far as he could in so short a it and without giving offence, the possibilities of Uin Kasr as an alternative harbour for the terminus of the proposed German railway from Bagdad, as, from information received from the Resident, Rustitre, I guthered that an alternative position neight be meditated.

Commander Kemp's Report fully bears out the idea formed in my own must from local inquiries that Um Kasr has the making of an uncommonly secure connecre al harbour, and if his hurried estimate of its capabilities is accurate, it places a doubtle? relative value on Kowert, with its very shoal waters, which necessatate long and extensive piem to accommodate shipment and disombarkation of goods, as compared with Una Kast, with its deep and sheltered waters.

I inclose Commander Kemp's sketch of Khor Um Kase, which is situated opposite the north-west corner of Warba laund, and is not shown on our charts, which, as previously mentioned, are quite unrehable and inaccurate for those parts.

You will observe that, as indicated in my letter of the 31st January, the Turkish advance to Um Kust has been followed by the further advance to Jeritat Boolsyan, whither they are now transporting stones and building a house, apparently for stores and

" at Kowest, February 20, 1902. I HAVE the honour to report that I left Kowelt on Friday, the 14th February, and Proceeded up the Khor Abdulla, when I anchored about half-way for the night I went on next day, and at 1:30 P M. anchored two miles south-east of Um Kast, in 10 fathous of water, about 500 yards from the western shore. When we approached the anchorage Tars me he it sin the oeah, a secure to the feet its it the appearance of the ship, and who were running about collecting their flocks, &c. I therefore sent my

interpreter to them to reassure them, and to tell them that I meant them no harm. While the interpreter was on the beach he found one of Sheikh Mubarek's men, named Floridini, and brought him on board to speak to me. At 3 r.m. I landed with this man and my interpreter and two of my officers, whom I had directed to ascertain the geographical position of the point on the heach opposite the ship by shore sights. When I landed I saw some Tutkish soluters with an officer coming towards us from the direction of the Torkish camp at Um Kasr, 2 miles north-west from where we

I meswered such questions as the Turkish officer asked me, and asked to visit his

came, to which he agreed, and I proceeded there in company with him

The comp consists of ten tents, with forty men, in a rectangle inclosed by a roined mind wall, and with a ruined mind tower, which the Turks use as a look-out. With the exception of the Turkish soldiers, no one lives there, and there are no houses,

While I was t " g down for him the name of the 4. &c., and e

ned to disturb him greatly, and he can out of the tent. My interpreter told me it had something to do eit i the

I went out of the tent and found the post surrounded by about seventy Bedouins. who were standing about 100 yards away, some mounted and some on foot, and armed with rifles, spears, &c.

The Turkesh soldiers were lying down under the mud wall, and it was ovident to me at once that they were quite out of hand, and that they were preparing to open lire on the Redounts.

The officer was in a pitiable state of agitation and for the moment had fost command of his men

I caused my interpreter to inform him and his sold ers that there must be no firing.

and promised to make the Aralis disperse.

The latter came no nearer, and as soon as the Turks were a little reassured, I took Eurabun, the Shorkle's man with mo, leaving my interpreter in the camp, and went out to the Araba and commanded them to return to their encampment,

The Turkish officer professed to believe that our visit was prearranged with the Ara to

forcements. He told me he expected 150 men in a few hours, but no one had arrived when I visited ham again the next.

On my way back to the ship . sted the Arab camp (about 2) miles from the Turks'), and saw the Headman, who said . belonged to Mubarck, and expressed themselves devoted to linus.

I somted out to them the folly of these conduct in advancing on the Turks, and told them that to attack the Turks without special orders from their Sheikh was an act of treachery to him-

Fo this they assented, and promised in future not to approach the Turks an closely

os to jut the latter in doubt of their intentions. I was careful, however, not to suggest to them to leave the vicinity of the place, or

that they had no right there,

I have reported the incident at some length as the Turkish officer expressed his intention of making a report about it to Bussorali. The Turks at Um Kast have done nothing towards improving the defence of the post in the way of treaches or strengthening the mad wall, which is so runed that mounted Arabs could charge right :

The Arabs complain of the Turks for stealing their sheep and oppressing them in

other ways, and there seems to be a very bitter feering between them.

The latitude and longitude of the apot on the beach opposite the ship was 10° 1' 20" N., and 47' 57' 57 E. This position may be relied on to be correct. I'm Knor lies 2 miles north-west of this,

It will thus be seen that Um Kasr is situated on the western aide of a khor (which I have eaded Khor Um Kaar), which is faintly represented on Chart 2837 a as running in to the north-west from the north-west side of Worla Island. We could see no sign of the large khor shown on the chart as existing about 4 miles to north-east of this.

Khor Um Kast is a broad deep waterway, and extends, I believe, up to Zobehr, which is 35 miles N.W & N. of Um Kasr. It will be thus seen that this khor affords a waterway for smaller ships directly on the flank of the Turkish line from Bussorah. through Zubhin, Safwan, and Um Kaar

Safwan and Zubhm have each about 300 troops. The former is situated 20 miles worth-west from Um Kasr, and the latter about 35 miles N W. 1 N.

Khor Um Kasr would be accessible to ships of any draught through Khor Abdulla were it not for a narrow and shallow channel off the eastern and of Worba Island, and this has at least 18 feet at high water, and probably more, and once past it you are in

deep water

With the exception of this channel, which might be dredged, Um Kasr would, I should think, make a good terminus for a railway, as far as natural advantages are concerned, as there is good accommodation for ships close to the shore.

Um Kasr has a good unter supply, and there is grazing ground for sheep but not

Heft Um Kasr on the 17th Pebruary and processed through the channel batween the south end of Words Island and north side of Booliyan into the Khor As Sobiyeli. Khor As Sobiyeh is also connected with Khor Um Kaor by a chainel shown on chart on north-nest aide of Works Island, but this was so narrow I did not care to take the

I anchored the same overlog in Khor As Soblych on a spot between the

4 and 2 fathoms marked on chart, about 6 nules north of Bobiyeh.

I visited Sobiyeh next day by bont. It consists of a few date trees and mid walls, and was occupied by some of Sheikh Mubarck's men who had come round the day before in a dhow.

I left again on the 19th February and anchored off the south-west corner of Worba, about a spot marked 7 fathoms on the chart, in order to sound round and ascertain what manner of harbour it would make.

I found the deep-water channel is rather narrow, but still there is good accommodation for the largest ships, and were it dredged on either side of the channel it would make a very fine harbour. It is quite landlocked, and a good anchorage.

In my opinion, as a railway terminus—so far as natural advantages of a harbour go -it is far in excess of Kowest; and were the Khor Abdulla surveyed and buoyed would, I believe, be accessible to slope of all draughts.

Proceeding down the Kher Abdulla I observed a Turkish post on the south-e st

part of Boobiyan Island, close to the small peninsula shown on the chart,

I therefore anchored for the night and visited it next morning

There are four tents with an officer and twenty men.

The officer told me they had come from Uni Kase, that they had been there a fortigat, and across nevert way pety seep a cross back bouse in course of construction for the recoption of stores, &c.

this and for all other supplies on Fao. No Arabs live in Bookiyan Island

It mg this trip, with the exception of the Sheiklin dhow at Sobiyeh and two thows plying between Fao and the Turkish post in Booliysa, I saw not a single boat, nor, with the exception of the people I have mentioned, any signs of I .

I propose, as soon as possible, to forward for your information a more detailed account of the hydrographical features of these khors and channels, together with an enlarged sketch of our route showing the soundings, a record of every cast having been

WITH reference to my telegram dated the 25th February, I have the honour to forward copy of a letter from the Senior Naval Officer in the Person Gulf, submitting the Report by Commander Kemp, of His Majesty's ship "Sphinx" of his visit to the Khor Alsculla and Um Kasr

The visit of the "Sphinz" has, I think, been very useful, as the correct position of the Um Kasr and Subbiya is now known, and the recent occupation by the Turks of a piace on Jezurat Bubiyan has been discovered.

Commander Kemp's cool behaviour when the Arabs approached the Turkish camp at

3. I have already reported to the Government of India that both Saswan and Uni Kase are claimed by the Shakh of Koweit as within his tecritory. With regard to Saswan, I am not in a position to form an option, but it seems to me that his claim to Um Kase may be more valid. It has been, I understand, for very many years an uninhabited spit a like beet used by Koweit as part to be a like beet used by Koweit as part to be a like beet used by Koweit as part to be much attended and the recent occupation by them would seem to be a breach of the status and

With regard to Bubiyan Island, the establishment of a Turkish post on this island at the entrance to the Khor Abdulla cannot, I think, be viewed with equanimity by us. Mubarak has written to me on the subject of this place, and states that the island, like Fadaka Island, belongs to him, and that the Avazem tribe, who are subject to him, have been living there since the occupation of Koweit. This tribe, he says, have fishing inclosures there, and reside on the island for seven months during the summer.

And Providence led his footateps to a house adjoining that of Ajian, the owner of which was known to him, and he knocked at the door. This took place at eight hours after nightfall. The owner of the house asked who he was and what he wanted, and Abdul Aziz in reply gave the name of a certain retainer of Bin Rashid's who was known to the owner of the house, adding that he was sent there by Aslan of to call him because a messeager had arrived from the Amir and Ajlan wanted him susmediately. Upon this the house owner flung the door open, and Abdul Azra at once seized him and put a dugger to his throat, and having informed him that he was Abdul Aziz, bade him be quiet, faiting which he would be killed. Abdul Aziz ordered his men to stop the women from raising an alism, and at once sent a member of the Jalut family to summon his troops, who all came and joined him without attracting any attention. After this Abdul Aziz went to the quiet. Some of the followers of Abdul Aziz now entered Ajlan's house, while the rest remained in the adjoining house. Abdul Aziz then inquired and learnt from A . . . that he generally returned from the Palace at one hour after sunrise.

If, on the other hand, it refers to proceedings of His Majesty's slaps, Lord George Hamilton has no special information on the subject, but he presumes that the presence of a naval force in the northern waters of the Persian Gulf is, in existing circumstances, accounty.

My Lord.

I HAD the honour, in my telegram No. 49 of the 3nd instant, to report to your Lordship that the Minister for Foreign Affairs had been instructed by the Sultan to assure me in the most formal manner that the Ottoman Government had no intention to occupy Sobieh or Kasama.

In making this communication, his Excellency added that the Sulton had inquired from the Minister of War and the local multary authorities, and had been informed that the rumour of any such intended occupation was without foundation and could only have

been originated by "des personnes malveillantes."

This statement can hardly be true, as the Council of Ministers would scarcely have considered the matter in solemn conclave, and presented a Maxbata to his imporish Majesty against the occupation, unless the idea had been entertained. I am rather inclined to think on the contrary, that the subject was at least under consideration, and that the intimation I gave the Foreign Minister that the occupation of these places, which were by all accounts certainly within the Sheikh's territory, would not be allowed, provoked the assurances which were given to me on the 2nd instant

I learn from another source that the Suthme Porto expressed to the German Embassy, which is kept closely informed of all that passes about Koweit, their fears that His Majerty's Government intended to extend their protection over places other than those within the jurisdiction of the Sheikh, but I have bothing to show that the reported intention to occupy Sobieh and Kasima was due to the instigation of that Embassy.

In speaking to the Manister for Foreign Affects yesterday I told him that I learnt from His Majesty's Consul at Busiorals that the Sheikh's lawyer had made opposition to the judgment by default in connection with some of the Sheikh's landed estates in Turkey.

And that the case would be retried to-morrow.

Ten the course of the state of

the vester appeared to appreciate my reserve, and gave me to understand that it would probably take years before the case was finally settled on appeal to the Court of Cassation.

In Bussorah itself and Zobeir there are approximately 1,500 infantry, a baltalion of field artillery, 300 cavalry (mounted on mules), and 100 sundress, checky supports (" iatakzomat Alai ").

At the posts recently occupied outside, viz., Sofwan, Umkasr, and Bubian Island, there are 350 infantry and 50 cavalry

With regard to future movements, I hear that more troops are expected from the Euphrates, that further reinforcements will be sent to the garrison in Hassa, and that two more military posts are to be established in addition to the three mentioned above.

One of these would be at Hejéjé, near Sobieh. So much programmation and racillation is however, manifested by the Turkish authorities in their execution of their plans in these regions that it is impossible to be sum of anything in advance.

India Office, April 10, 1902

Inclusure in No. 133

Lieutenant-Colonel Kemball to Government of India.

(Confidential) Bushire, March 16, 1902. IN amphibention of my telegram dated the 15th March, I venture most respectfully to make some further semarks on the subject of the decision of His Majosty's Clovernment that it will be difficult to maintain, with our present information, that the astion of the Ottoman authorities in Buliyan or Uni Kasr constitutes a disturbance of the status gas at K weit, and, consequently, that we must be content with the at all to 2 K

With regard to Um Kasr, it is true that the claim made by the Sheikh is not particularly strong, it would, perhaps, he correct to consider the place as a sort to have had some kind of connection with Kowait, but where Turkish authority has not hitherto been exercised. Habiyan Island is, I understand, a low-lying mud-flat, uninhabited, and probably uninhabitable, but which, the Sheikh of Koweit states, is resorted to for fishing purposes during the summer months by a tribe owing allegance to him. Taking these facts into consideration, and admitting that the Sheikh's claim to owneralip of these places independently of Turkey may not be very strong, I do not think that it therefore follows that the status que at Kowert has not been disturbed by the recent occupation of these places by the Turks. The advance of Turkish troops is viewed

by Sheikh Mubarak with great concern; his prestige as Sheikh of Koweit has undoubtedly been thereby diminished, and it appears to me that his position as an independent Ruler will be considerably weakened. The Government of India will be aware that when the Nakab of Bussorah recently visited Kowest with the threatening message from the Suitan of Turkey, the Sherkh was evidently wavering us his mind, and considering whether it would not be to his interest to make the best terms he could with the Turks. The crisis was then averted owing to the presence at Koweit of His M jesty's ships of war and the support which was given to the Sheikh, who maintained tion has aguin become difficult; the Turkish advances are apparently intended to constitute a direct mennee to Kowest; they practically have closed the communications between Koweit and Bussorah, and presumably must affect adversely the interests of the people of Kowert, and, consequently, diminish the popularity of the Sheikh, while strengthening the hands of his enemies. Clearly, therefore, it seems to me, if we wish to maintain our hold over Koweit, the presence of His Mojesty's ships at Koweit as a direct support to the Sheikh must be continued for an indefinite period. The Govern ment of India will, I am sure, understand that I have no desire to princise the decision to which Has Majesty's Government have come with regard to the occupation of these places by the Turke; but I feel it incumbent on me to lay before the Government my views us to the effect which is likely to result from the Turkish movements, and of the in the status que which has, in my opinion, actually taken place

from the information which has reached me from His Majesty's Consul at which was embodied in my telegram of the 15th instant, regarding the expected disputch of Turkish support to Bacayan, it is, I think, ordere that the

"sportance of the Knor Abduda has been recognized by the Turks.

3. With regard to the place Hejeje, referred to in my tenegram dated the 14th instant, I am informed by the Senior Naval Otherr that this place is on the Kowert of the Khor Subbaya, 4 miles north of Subbiya and 7 miles from the meath of the Khor. The Sheikh states that some of his people always live there, and that the place Tell of the second seco my advice, occupied the place, and it seems improbable that the Turks will advance in Y T Y N I Y N H Y T and also to Subbaya, independently of his relations with Turkey, may, purhaps, he not much stronger than his claims to Um Kase and Bubayan, but their occupation by the Turks would undoubtedly cause him great anxiety, and I am of opinion that his claims to them should be upheld. It must be remembered that Mubarak has, in deference to the advice of the naval authorities, promised not to add to the complications of the Atuation by offering any active opposition to the Tuckish advance, and that, otherwise, the Turkish peats at Um Kaur and Bulayan might not have been left unmolested This fact may, perhaps, enable His Majesty's Government to warn the Porte, while there is yet time, that the Kawest shore of the Khor Subbeya must not be encronched Light

Willi reference to my telegram No. 33 of to-day, I have the honour to report that I learn from a source I believe to be reliable, that during the month of February the Sheakh of Koweit effered to Musicia Neuri Packs, the Voli of Bussersh, a large som (stated to be 2 T 10,000) if he would make favourable representations on his (the Sheakh s) behalf at Constantinople and put a stop to the encrosedments on Koweit whether verbally or by letter I do not know, through Mahmoud Bey, a Turkish efficer who happened to be on business at Koweit. The Vali, who is new to civil administration, appears to have declared the offer, on the ground that he has no need of the money. But he suggested that the sum might be made a present to the Treasury. Thus hint has not been seted on, but some amicable correspondence has ensued between the Sheikh and the Vali

The former wrote that he was the Sultan's slave, whereupon the latter inquired rather pertinently why then had he taken up with the British. Mubarek then explained that he was forced to get help from some quarter or other against Ibn Roschid, and since the Tork of the latter in latter of other against Ibn Roschid, and since the Tork of the latter in latter and the nerve aelf preservation, and did not imply any hostility to the Sultan. The Commander of the Russian man-of-war "Varyag," too, he said, had offered him any military assistance of which he might stand in need,

The correspondence, I believe, still continues, and whether the Vali is taken in by

Mubarek's protestations or not, be certainly speaks of him more indulgently than before.

The payment of Abdurrahman-bin-Feysal's pension, which had fallen into arrears, had been resumed. As he is an ally of Muburek and the avowed enemy of Ibn Raschid, this may not be without significance.

My Russian colleague holds frequent consultations with the Vali on the subject of Koweit, but I have been unable to learn the purport of their conversation beyond the fact that they continually mention the word "Koweit."

Inclosure 4 m No. 137.

Mr. Garkin to Lieutenant-Colonel Kemball.

(Confidential) Bulvein, March 22, 1902. I HAVE the honour to acknowledge the receipt of your Confidential letter, dated the 7th March, 1902, and to report that the Turkish corvette " Zuhaf" reached Ras Tanura on Monday, the 10th instant

Authentic information has been received that the vessel has brought about 350 Turkish infantry and two small guns from Bussorali. The troops and guns were landed at Auseh, a delapitated fort about 2 miles south of Katif. 100 of the infantry have been sent to form a garrison at Ojair, and the two guns were dispatched t THE IT

Muhammad-hin-Abdul Wahab Paska, who accompanied Sand-al-Hazemi to El If , returned to Bahrem on the 9th instant. He called at the Agency subsequent return, and amongst other information I learnt from him that Yakub Beg the ex-Kaimakam of Katif, wrote to the Government, as far back as December, regarding the advisability of having a small guard at either of the Islands of Musalamiya or Janua some 68 miles to the north of Kauf, and the Mutessaul of El Hassa, has been instructed by the Minister of the Interior through the Vali of Bussorah, to carry out the auggestion and arrange for a guard of twenty-five soldiers there. These two islands are small, about a square mile each, and are situated in a shallow bay and consecuted by fords with the mainland. They are inhabited by the Amair tribe, and ears have become important owing to the nomind tribes in Aden and adjacent territory, making them a market for the sale of clarified butter and tita. produce. Recently a fight took place between two factions of the Amairs and some blood was shed on each side. This occurrence will afford the Turks sufficient excuse for placing a guard in the island

Shork's Muhammad also stated that the reinforcements made to the Katef and Opair garrisons are due to repeated petitions submitted by the residents of Katif to the Porte, ask ng for an fuerense in the garrisons as a safeguard against Bedomin incursions, and to the Turks fearing His Majesty's Government entertain strister designs against their territories in those regions. He confirms the information mentioned in the fifth paragraph of my Report, dated the 23rd February, relative to the

define of Sand-al Hazeum at El Hasea.

I HAVE the honour to report that His Britannic Majesty's Consul at Bussorsh bas forwarded to me for disposal a later received by Mr Lyk, agent of the British latin Steam Navigation Company at Bussomb, from Sheikh Muharek, of Koweit, asking that the postal service may be extended to howeit.

Apart from the question whether the local receipts would be sufficient to cover the expenses of a post-office at Koweit, I am doubtful if the measure would be considered advisable in view of the position of His Majesty's Government with regard to Koweit. At present, I understand that the British India Steam Navigation Company have Orden t and an on forth glaly service between B subay and Koweit, but it appears to be uncertain whether they intend to do so permanently

the er the present time is not opportune for the consideration of the question of the establishment of a post-office at R we an out, buf re I be so, I think it advisable to ascertain the views of the Government of India on the subject.

Inclosure 2 in No. 139.

Government of India to Incutenant Colonel Kembali

Port William, January 20, 1902. I AM directed to acknowledge the receipt of your letter, dated the 27th November, 1901, regarding the wish of Sheikh Muharek that a post-office may be opened at Koweit.

? The Government of India would not be unwilling to extend the postal service to Rewell and dearly at present a to the approper concentrate for a non-office at that port. The post-offices bitherto maintained by the Indian Government in the Parman half and Turkish Arabia are not separate offices. They depend upon the political and Consular authorities, and the Postmasters, even if paul entirely by the Postal Department, are usually borne on the political or Consular establishments. If a native agent were appointed to Koweit, it would be simple to give him an extra allowance for conducting the business of the post-office, for which there will be a stronger case when Kowert is, once a fortnight, made a regular port of call by the British India stoningre on their downward journey. But it is considered that the native agent should come first and the most-office afterwards.

3. I am to ask you to consider this suggestion, and to favour the Government of India with your opinion upon it It is considered that it would be useful, and probably [1618]

agreeable, to the Sheikh that we should have a native agent at Koweit, and I am to inquire whether, if such appointment were made, a suitable man can be found for it, and what, in your judgment, would be a reasonable rate of pay to give him.

I have, &c.

Inclosure 3 in No. 129

Lieutenant-Colonel Kemball to Government of India.

(Confidential.)

Bushire, March 1, 1902.

I HAVE the honour to acknowledge the receipt of your letter, dated the 20th January, on the subject of the establishment of a British post-office at Koncil

The suggested appointment of a native agent at Koweit has, in my opinion, much to recommend it, and I could, I believe, find a suitable man for the post. It will be advisable, if the post is created, that the agent should not be allowed to indulge in trade, and a salary of 200 rupees a month should, I think, be paid to him, exclusive of the allowance for conducting the work of the post-office when it is opened. Before, however, the matter of appointing an agent at Koweit is definitely decided. I think it as well to so out the fellowing points for the consideration of the foregree ent of India —

In accordance with the agreement entered into with the Chief of Koweit, in January 1899, the reception by him of an agent or representative of a foreign Power, cannot be permitted without the consent of the British Government. It is, therefore, a matter for the consideration of the Government of India whether the appointment by us of a regular agent might not at the present time be found to be inconvenient. So long as we have no agent at Koweit we can object to the presence of the agent of any other Powers at the place as he ig a breach of the value of the large declared of intention to maintain; but if we appoint an agent, and at the same time refuse to admit the agents of other Powers, might it not be sawl that we ourselves were disturbing the status que?

It is probable that this point has not escaped the notice of the Government of India, and it is not considered to be a valid objection to the appointment of an agent by us.

Further, it has to be considered that the fortinghtly service of the British Industrant Navigation Company to Koweit has not yet been instituted. Owing to the distributed state of the North and Standar Tourist and the momentate covering of Koweit, the trade of the port of Koweit is not of sufficient importance to justify the Company in maintaining a regular service with the place. In any case, therefore, it may be advisable to defer the appointment of the agent until the present cruis is over and a regular steamer service instituted

It seems to me, therefore, that in consideration of all the circumstances it will be advisable to keep the question in abeyance for the present. I have not thought it advisable to ascertain the views of Sheikh Mubarck on the subject. It is probable, as the Government of India may, that the appointment of a native agent would be agreeable to him. He would perhaps look on it as a further step towards the protectorate which be desires.

IN my telegram No. 40 of the 20th May I had the honour to report to your Excellency the arrest of Abdul Asis, the Sheikh of Koweit's Agent at Bussorsh. He had been denounced to the Palace as a subscriber to the "Khilafat" nowspaper, of London, it is supposed by Ibn Reschid's partisans here, and orders were sent to the Vali to have him arrested and all his papers seized. The Agent's brother was able to make away with a copy of the "Khilafat," which was actually in his house, but sufficient correspondence was found to leave no doubt that Abdul Asis was actually a subscriber to the paper on behalf of the Sheikh of Koweit, to whom he forwarded it on arrival. He has been examined by a Special Commission, which has decided that he should stand his trial on a charge of fetony (" mayer"), and he is now confined in the inner prison with the common criminals, pending forther orders from Constantinopte. Some of the leading Araba of the town approached the Vali with a potition that he might be better lodged and treated with more consideration before trial, but Mustofa Nouri Pasha told them to mind their own business, as this was a matter concerning the Sultan, and it was dangerous to interfere.

Sheikh Mubarek arrived in the river with three sailing vessels the day after his Agent's arrest, in connection with a piracy committed by Persians on a Kowelt ship. On hearing what had happened he at once wrote to the Vali to inquire the reason for his action, and was told in reply that Abdul Aziz was arrested, in conformity with an Imperial Iradé. On arriving at Mohammerah, where he stayed some days with Sheikh Khazel, Mubarek requested Mr. McDouall to sak me to inform the Resident at Bushire by telegraph that he wished to make a direct appeal to the Sultan on behalf

The Vali's Dragoman, who is always keen to find a chance of picking up a little commission (pecuniary), came to me this week and said that Yussuf el-brahim was anxious to settle ins dispute with Mubarek, and could it not be done in a friendly manner. Yussuf, he said, had no personal hostility to the Sheikh. He really did not mind about the late Sheikh's murder, who had not married Yussuf's sixtr, as generally supposed, but only his first-cousts. It was all a question of mency when Mubarea became Sizeki is the said in would find a count lake in the Treasury, whereas there were only 16,000 rupees. He at once rushed to the conclusion that I ussuf, where is many a new to be the might have seen from the accounts regularly sent in Anyhow, Mubarek laid hands on all Yussuf's property within reach, and collected the debts owing to him at Kowert.

I replied that I thought it very desirable that these two fine fellows should become friends again, but that this was not the first time I had received indirect overtures from Yussuf, which be had carried no further, and I must have something more definite to go on before I moved. Khahl, the Dragoman, and he would speak again

I hear from elsewhere that Yussuf has taken fright at Muberck's visit to Shoikh Kharel, which he believes was to arrange for his own assassmation, and that this is why he wrate to come to terms. There is no doubt that Mubarck would like to put him out of the way, and if the Shouki of Mohammerah is willing to country by giving shelter to the assassin, it would be an easy enough job. A nigger in these parts can be hired for a very small sum to do murder, provided there is a fair chance of escape afterwards.

I de not tunk Muberck is in a position to pay up to Yussuf, even if he were willing to do so. His expenses lately have been enormous, and Yussuf's claims are

Abdul Rahmon-bin-Said, the third and only living son of Feyzul-bin-Said, has been living at Koweit for some time. He is a friend of Sheikh Moubarak, and has been terming a sort of pension from Bussorah on condition he remained quietly at Koweit, but, as event of this was stopped at the beginning of this year.

About a year ago Abdul Azis-bin-Said, son of Abdul Rahmon, went south, and, finding that the Sheikh of Kharj and cortain other Sheikhs were willing to assist him, collected a force, and at the beginning of this year captured Riadh. As far as I can gather he has now gained possession of a large portion of the surrounding country, in fact, all the southern half of Nejd, including Mangoobah, Derayeh, Kharj, Harik, and the Yemamah country.

Kasm and most of the Western country, including Bureidah, Shakra, Jerajel, as well as Hail, are still in the hands of Bin Rashid; but, according to all accounts, the Sheikha and people of these countries are very dissatisfied with his rule, and are only waiting for a favourable opportunity to go over to Bin Said.

t great number of the better class Wahabis and others of Nejd have left the country during Bin Rashid's supremacy and have been living at Bussirah and other places. A portion of these, as well as the Sheikhs of Ajmon and Al Murrah (a large tribe who live in the Abis, or Hass, country, with large followings, have attached themselves to Abdul Rabmon, who left Kowert on the 18th instant to join his son, Abdul Axis in His th

He states that he has abolity to effect this himself.

The reason that Rahmon wishes the British Government to watch his interests, apparently, is that he fears complications with the Turks. I may add that there has some no remour current for some time that the Turks have offered his Rashi assentance in his operations, but I am given to understand that no movements can take place during the summer months owing to the scarcity of water.

On the 19th, I landed and visited Sheikh Jabbor, the sidest son of the Sheikh of Koweit, who was away at the time. After the usual greetings the Sheekh lent us horses and, in company with Major Cox, we rode through the bazzar and outside the town, and saw the entrenchments which were dug to the south and south-west of the town to prevent a threatened attack during the post year from Bin Raschid, the Arab Ruler of Neid, a town 600 miles to the westward of Koweit.

It is believed that Bin Raschid was invited to this act by the Turks, but the attack never reached the coast, though several fights occurred between it and Neyd.

I had not sufficient coul to allow me to your Khor Abdullah, to the northward of Koweit which, according to the latest newspaper reports, is now said to be the projected terminus of the German railway. Unquestionably, Koweit will make an excellent

On the morning of the 20th, the Sherkh returned my visit and went round the thip. I presented him on his leaving with a silver seent sprinkler purchased from Messrs, Cowastee Dinshaw, Bros., and milited him with five guna.

It will be seen that Abdul Rahman asks to be considered as one of the protégés of the British Government, the Arabic words used by him being " min mahsubienkum," or "one of

those having relation with you."

2. The Government of India will be aware from my previous reports of the successes which have been gained by Abdul Azis, the son of Abdul Rahman-oin-Feynal, and it would seem that Abdul Rahman now considers his son's position sufficiently assured and has decided [1518]

to give him his active support. It is impossible to predict with any degree of certainty whether the El-Sacod family will succeed in their present enterprise. The general impression seems to be that the present Amir of Nejd is a different stamp of man from his predecessors, and that the fact of his having left Abdul Aziz-bio-Abdul Rahman in undisputed possession of Riadh for so long angurs well for the final success of the Wahabi dynasty. It is further generally thought that the season for warlike operations is now past, but that in the early autumn the Amir of Nejd will take the field in earnest and try to recover his lost pressing. It seems futile at present to discuss what will be the result if the Wahabis succeed in re-establishing their rule in Central Arabia, but I think there is no doubt that our attitude most be impartial, and I do not propose to send any reply to Abdul Rahman's letter. The statement made in the letter that the Russian Consult at Bushire bad asked Abdul Rahman to write to him is possibly true, as I am aware that when the Russian Consul visited Koweit he and an interview with Abdul Rahman.

My (other) tribesmen wanted to go to the assistance of their brethren, as they were close by; but as I had warned my tribesmen that whenever anything happened they were to refer to me, they abstained from retaliation. At this time I had written to the Wall of Bussorah on the subject, and had inclosed my letter to his Excellency in the letter 1 had written to my Bussomh agent. Abdul Aziz-al-Salim. I had asked my agent that, before delivering the Wale's letter, he should show it to the Consul at Bussorah, and ask him if it should be delivered or not. My agent thereupon delivered the letter, but up till now no reply has come to me from the Wali in the matter, nor have I received look the released between the trace ask and a best

Bussaruk, July 3, 1902. I HAVE the honour to report that according to telegrams received here from

Constantinople, Seyid Thalib Pasha, the eldest son of the Nakib of Bussorah, has been appointed Mutessarif of the Sandjak of Hassa, and has already left the capital for Bagdad with a view to taking possession of his post.

Thatib Pasha was summoned to Constantinople in disgrace at the beginning of the year, to answer both for his private misdeeds, which were many, and for the maubor i when of Sheikh Mubarek of Koweit which it was consciered that he might [1514]

have done something to prevent. The influence of his backer at the Palace, Abu Hudda, and his lavish expenditure of the family funds at Constantinople have, however, enabled him to emerge triumphantly from his difficulties.

Re is an able though unprincipled man, and may, perhaps, be able to cope with the difficulties of the attiation at Hassa, where the Arab tribes still render all communica-

tion between the town and the coast a matter of danger

As reported in my telegram No. 46 of the 20th altimo, the transport 1 . . " left Bussomh on the previous day with reinforcements for that district, consisting of a very weak battalion of mule cavalry, a battalion of the 11th Nislanji Regiment, four mountain guns, and a few artillerymen-in all, something over 500 men.

The Sublime Porte has not spoken to me on the subject, although I have no doubt they were acquainted with the circumstances when I called yesterday upon the Minister for Foreign Affairs, and I do not propose to broach it unless instructed by your Lordship and put in possession of information which will enable me to prove that the expedition was abetted by the Turkish authorities, and took place with their knowledge and approval. We have repeatedly called the attention of the Ottoman Government to the acts of piracy committed in the Person Guif and Shat-el-Arab without other results than assurances that measures would be taken to secure the safety of these waters by sending Turkish gun-bonts there.

The action of the officer of His Majesty's ship "Lapwing," whether taken against purates or against a flibustering expedition organized by Yusuf-el-Ibrahim against the Sheikh of Kowsit, shows our determination effectually to police these parts when the Ottoman Cover ment fell to I so, and I carrot leat thick it wall have a sever y deterrent effect for the future, both as regards piracy and attacks upon Kowest.

On the morning of the 5th instant two suspicious dhows full of armed men were seen. They refused to stop when hailed, and threatened to fire on the "Lapwing's" bont, whereupon all beats gave chase, and faulty dhows ran ashore on the Persian coast, The Arabs landed and fired on bonts. One blue packet was killed and two wounded, but the beats erentually succeeded in getting the two dhows off. Enemy's loss extenated at six from return the of boats,

The two dhows belong, I have fittle doubt, to Dors, and were intended for a mid-

1 IAID before my Lords Commissioners of the Admiralty your letter of the

the instant, inclosing a cupy of a note from the Turkish Charge d'Affaires denying the intention of the Shinkh Yussuf Ibralam to attack Kowett

In reprete your inquiry as to the report mentioned by Hamid Boy that three of His Majesty's slope were about to anchor at Bussorah, I am commanded by their Lordshops to request you will represent to the Marquess of Lansdowne that the "Sphinx" is now in the Shatt-el-Arab to aid in the suppression of purcy, and that the "Lapping" is engaged in patrolling the river during the data season.

Further, in consequence of the recent encounter between the "Lapwing's "boats and pictural dhows, the Commander-in-chief sent the "Cossaek" and the "Redbreast" to the Persian Gulf, probably on the assumption that the affray in which the Lapwing" was engaged had a political aspect, the dhown having been reported as

went by Ben Ibrahum to attack Kower-

Lord Landowne will have observed that, in his telegram No 16 of the 15th instant, the Commandee-in-chief stated that subsequently the "Coscock" reported the "affair was of no political significance, save that the attacking party was raised and dispatched from Turkish territory."

Rear-Admiral Drury did not, however, state the port from which the "Cossack" telegraphed this message, and it is possible that her Commanding Officer may have gone to the Shatt-el-Arab to confer with the Commanding Officer of the "Lighting" before telegraphing to the Commander-in-chief

If this assumption is correct the "Cossack" would be the third vessel in the river, and the idea may have arisen that she was going up to Bussorah.

2 No. 157

These circumstances appear to my Lords to afford the most probable explanation of the rumour to which Lord Lansdowne refers. That the Commander-m-chief would allow the "Cossnek," in addition to the other two vessels, to remain in the river my Lords do not consider probable, but they will cause a telegram to be sent to Admiral Drury, should Lord Lansdowne desire it, alluding to the report in question, and asking the proposed disposition of the "Cossnek" and "Redbreast."

No 138

Consul Wrateslaw to Sir N. O'Conor .- (Received at the Foreign Office, September 29.)
(No. 46. Confidential.)

(No. 46. Confidential.) Sir,

WITH reference to my despatch No. 20 of the 13th June last, I have the honour to report that Abdul Asia, Agent of the Shetkh of Kowert, has been condemned by the Criminal Court of Busionals to ten years' imprisonment in a fortress. The charge against him was that be committed trusson by ordering and receiving the sections Arabic newspaper, "Khilafat," published in London, and that he also carried on a treasonable correspondence with the editor, thereby incurring the penalties laid down in Article 58 of the Criminal Law, which fixes the punishment for such an offence at from three to lifteen years' impraconnent in a fortress.

The Agent offered practically no defence to the charge beyond ascerting that he acted under instructions from his principal, Mobarck. The facts were, indeed, clearly proved by letters addressed to him by Mobarck, telling him to order the paper, and by the editor acknowledging receipt of his subscription. The latter further exhorted him to push the sale of the "Khitafat" amongst his friends, a point which probably told considerably against him.

Another letter from Mubarek was read in Court, in which the Sheikh of Koweit instructed his Agent to apply to the British Consulate in man he had any difficulty with the Turkish authorities. Asked by the presiding Judge whether he had acted on these instructions, Abdul Axix asserted that he had not done so. Another mean of letter, but one evidently from Mubarek, forwarded a letter to the Yah concerning his right to Umkass, the answer to which the Agent was told to show the Beitoh Consul

This letter also stated that the British Ambassador was kept constantly informed of what was going on, and that three or four British men-of-war continually protected Kowert

Another letter from the editor of which the Vali told me, but which was not produced in Court, contained a warm invitation to Mubarck to attend His Majesty's Coronation.

Considering that Abdul Azia throughout was acting solely on behalf of Mubarek, the sentence certainly seems extremely severe. He has addressed an appeal for mercy to the Sultan (this was dispatched, I believe, before the treal), and the latter has ordered the papers to be forwarded to Commutatnopia. The Vali replied that the desirer was already being sent to the Court of Canation for revision in the ordinary course.

The conduct of Abdul Aziz in keeping such compromising documents as were produced in Court seems almost meomprehensible. Indeed, the Vali informed mothat previously he had a high opinion of Muharek's intellect, but that he now considered that a man who could keep such a fool for his agent must not be very bright himself.

Reschid was to a considerable extent instrumental in obtaining Thillib Pasha's appointment, and that the latter will not in his interests and against the Shoul family who have recently established themselves in Radb.

I gather that the Valt does not view this appointment, on which he was consulted, with any favour, as the unscrapulous and venal character of the new Mutesserif is well known to his Excellency, as, indeed, to every one cho in these regions.

I say a wet sponge over the past, including the regrettable mercent of the attack on Hassa without deliculty.

You are presumably satisfied that a Turkish Magistinte can, according to Turkish law, take evidence of witnesses in British territory for use in Turkish Law Courts.

The view of His Majesty's Government is that a British ship of war in Turkish territorial waters is entirely outside Turkish jurisdiction, and that it is merely as a matter of courtesy and favour that any action by the Turkish officials is permitted on board of her

If these conditions are clearly understood, His Majesty's Government would not object to cridence being taken by the Turkish authorities on board His Majesty's ship "Lipwing;" but the more convenient course would certainly be that the witnesses in the little product of the little product of the safety being taken which may be considered expedient.

(No. 185.) My Lord,

Therapia, October 21, 1902.

WITH reference to my despatch No. 445 of the 10th instant, in which was inclosed paraphrase of a telegram, No. 66, from His Majesty's Consul at Bussorah, respecting the attendance of witnesses from Kowert at the inquiry to be held into the recent raid on the Sheikh's territory, prepared by Yussuf-hin Ibrahim, I have the honour to report that I have to-day received a further telegram from Mr. Wratislaw, of which the following is a paraphrase:—

67 of the 20th October. So far the Resident has sent me no reply to my be grown, but the 'Lapwing' has been dispatched to Koweit by the Senior Naval Officer. According to the Sleich the witnesses are not at Koweit, but he has several others who can furnish evilence to the same effect, and he has allowed them to come to Bussorah, where they arrived yesterday, on the 'Lapwing,' but only on the express condition that the Commander would not let them out of his sight. In these circumstances I propose, with your Excellency's approval, to request the Vali to send the latter of the propose, with your Excellency's approval, to request the Vali to send the latter of the propose, with your Excellency's approval, to request the Vali to send the latter of the propose.

" builing this, the witnesses might be accompanied to the Court and back to the ship by the Commander, and it would be well, I think, that I should go with them also.

I think the former arrangement would be preferable, but the Vah may more objections to both."

I should be obliged if your Lordship will inform me by telegraph what instructions I should send to Mr. Wratislaw.

I HAVE the bonour to inform you that the Sneikh of Mohammersh has caught at Minuhee, a village on the Paruan side opposite Dura, fifteen men armed with rifles (three have since escaped) attempting to cross the river to Dura, the night after my capture of the dhows.

3. I was present at the examination of some of them on the 14th instant, and although they will not admit that they know anything about the dhows or expedition, the circumstantial evidence is sufficient to prove that they were of the party.

S. They are men from a village called About Khanb in Turkish territory, about 10 miles below Bussorsh. I have heard that two Arabs wounded by Lee-Metford builets are at present in this village.

4. The Walt here at first repudinted the idea of an expedition, and said it was a common case of procy, and that no expedition could start from his territory without his knowledge; he now appears to be making inquiries from various river villages, but he is aking no effective action in the matter, and I am afraid he will not do so unless forced.

The Arabs are atraid to give information against Sheikh Yussuf-bin-Ebrahim, who is a very powerful man, so it is almost impossible to get direct evidence to give the Wali against bim, but the circumstantial evidence, combined with a quantity of information obtained secretly, make it quite certain that the expedition was organized by Sheikh Yussuf, and left Turkish territory to attack Kowi t

7. On arriving at Mohammerah on the 13th instant, I was informed by the Vice-Consul that the grave of Daly had been violated and the coffin broken open; the Sheakh had been commonicated with, and had remade the grave. He is trying to find the perpetuators of the outrage, and has levied a tax on all the surrounding villages unless they give information which will lead to the punishment of the culprits. (No. 55, Confidential.)

I'V accordance with the desire expressed in your Excellency's telegram of the 26th instant, I have the honour to forward herewith copies of the depositions taken at Koweit by the Commander of His Majesty's ship "Cossack." Captain Cartwright states that they were taken down in English through the medium of an interpreter, and then read over In Arabac to the witnesses, who attached their seals in the presence of the Kadi of Koweit.

The parrot-like repetitions, which your Excellency will observe in those depositions, do not necessarily imply collusion or perjury, but I am unable to absolutely guarantee their genuineness. I have very little doubt that the expedition started as related by the witnesses, but in this country false evidence is so easy to procure, and so little odium is attached to the use of it, that the possibility of their having to oblige their Sheikh related as the oblige their s

Commander Curtwight, however, who was present when the depositions were to be in I should be true the to judge lines not suggest any I salt as to the bone fider of the witnesses.

I have already informed your Excellency by telegraph of the course of events since the encounter of His Majesty's ship "Lapwing" with the two dhows, but there are one or two points regarding which further explanation is necessary.

In my interviow with the Vali of the 8th instant, reported in telegram No. 50 of the action of the control of t

Throughout our interview Mustain Neuri Pasha endeavoured to combat every argument I brought forward, acting more like the advocate of Yusuf-el-Ibrahim than an impurtial Governor, and he finally informed me that he could take no notice of my complaint until it was put into writing.

I accordingly wrote him a letter, copy of which is inclosed berewith, and on the loth i start received his reply informing the that he was senting a Commission on board the "Lapwing" to take evidence. I accompanied the Commission on board, and interpreted Lieutenant-Commander Armatrong's evidence to the Juge d'Instruction, to whom the seal found in one of the dhows was shown.

With regard to this seal, I should state that I had previously caused inquiries to be reade concerning the identity of the person whose name it here, viz., Ahmed-bin-Mohammed-el-Asousi, and had no difficulty in ascertaining him to be a man in Yusuf-el-Ibrahim's confidence, who forms one of the armed bodyguard which accompanies him wherever he goes.

His Magesty's Vice-Consul at Mohammerah heard the same from independent sources, but the Vali assures me that he has been unable to learn anything concerning him except that he is behieved to be a resident at Kowett, and that Yusuf-el-Ibrahim

dealed all knowledge of him.

Meanwhite, twelve armed men, who presumably belonged to the crews of the dhows, had been arrested in Mohammersh territory under the circumstances stated in the inclosed copy of a Report from Mr. McDouall to His Majesty's Acting Consul-General at Bushire. Their accounts of themselves are so full of contradictions as to be evidently false, but they have botherto refused to confess, and I have come to the conclusion, in which I believe His Majesty's Vice-Consul concurs, that the Sheikh purposely avoids extracting the truth from them for fear of incorring the ennity of the Vali and Yusuf-el-Ibrahms. My own private inquiries have come to very little through my informants suddenly failing me when it became known that the Vali was protecting Yusuf-el-Ibrahim. For instance one Haji Ibrahm, a leading Arms of the place, who had informed me of the presence of a wounded man at Abul-Rasib, and of various details connected with the abortive expedition to Kowert, was actually sent down the river by the Vali to make private inquiries for his Excellence.

I sent my Drogoman to see him while thus engaged, and he gave him further information; inter alia, that the wounded man had been removed to Dora, and stated that on his return he would let me know everything. He came back to Bussorah and made his report to the Vali, after which I could get noth ag out of him except that he know

nothing whatever.

There is little to add to my telegram No. 63 of the 18th instant, reporting my call on the Vali, in company with Lieutenant-Commander Armstrong, beyond one remark which he made in reply to my explanation of the position of life Majesty's ship "Lapwing," viz., that the fact of the dhows flying no flags refusing to heave-to when ordered by a man-of-war, and threatening to fire on her bouts, justified the man-of-war in treating them as position. His Excellency said, "Yes; but not when there is a position side to the quession," a remark which appears to me to in-ply that the dhows in question were engaged in a political mission, i.e., to rematate the former Sheigh's son in his father's position at Kowert.

To-day I again called on the Vali with Lieutenant-Commander Armstrong, and a second of the second of

the then called the Assistant Public Prosecutor, and, after consulation, informed ince that for the purposes of the judicial inquiry (to which be list been strictly limited by the first or a first or and the strictly limited by the the strictly

I replied that the Commander of the "Cossack" had been told at Kowest that they were alread to come. The Vola expressed naive astonishment at this, and said they would be interrogated, and could leave immediately after. I asked if his Excellency would use his word that they should not be defined, and he said, "Yes."

Since telegraphing to your Excellency to inquire if I might guarantee to Sheikh Mobarek that the witnesses would return to him safe and sound, I have received a letter from the Vali informing me that he has relegraphed to "Sheikh Mubarek Pusha, Kalmakan of Koweit," asking him to forward the witnesses.

By "telegraph" he probably means that a telegram to Fao will be dispatched thence

to Kowen by boat, as the wire ends at Fan.

In the above interview the Vali, in answer to my inquiries, again stated that he had learned nothing further about the origin of the abows and their crews, and that he was still awaiting information from Mohammerah. He stated, however, that the disappearance of Mubarek's nephews, Khalid-bin-Mohammed and Hamouri-bin-Jerrab, since the occurrence was a aignificant fact.

It is absolutely meredible that a man in the Vali's position, with the mouns at his disposal, should, after nearly four weeks, have failed to find out every detail concerning an incident which is a matter of public notoriety in his district. He has suggested no alternative explanation, and I can only conclude that he knows all about it, and is

wilfully concealing his information from me. It is obviously discreditable to him that such an expedition should have been allowed to quit the Shat-el-Arab either with or without his knowledge, and he is probably doing all in his power to avoid the responsibility being brought home to him. The great local influence of Yusuf-el-Ibrahim is also an important factor in this conspiracy of silence.

It would, in my humble opinion, be very regrettable were this inquiry allowed to die a natural death. Not only would our prestige suffer were it known that British seamen could be shot down with impunity, and that we are powerless to punish malefactors whom the Turkish nuthorities choose to protect, but it is greatly to be desired that such an opportunity should not be allowed to escape of removing the constant member to Kowert which the presence in this neighbourhood of Yusuf and the nephews of Mubarck entires. Yusuf is a violetive Arab with a violent gradge against Mubarck, and his great wealth askes him very dangerous. The nephews have their father's murders to aveoge and their position to recover, and so long as they are here it will be the merent prudence to keep a man-of-war constantly stationed at this end of the Gulf for the protection of Mubarck. Even this cannot manner a surprise attack being some day pushed home.

In conclusion, I venture to draw your Excellency's attention to the value of the service rendered by Lieutenant-Commander Armstron

Probably it was the promptitude with which he proceeded to Koweit which prevented an attack on the town, but in any case the excellent judgment he showed in taking up a position which unabled him to intercept the dhows on their return resolted in the Arabs of the Shat-of-Arab receiving a much-needed lesson. It will certainly be more difficult in the formula paratical expeditions of this sort, and I anticipate that an excellent pression will have been produced on the criminal inhabitants of the river banks who indulge in ordinary practics whenever they see a safe opportunity.

. Bussorah, September 8, 1902.

I HAVE the bosour to draw your Excellency's attention to the following " to will a have been reported to me by the Commander of His Majesty's ship " Lapwing," now in commander at Bussianh.

On the 3rd September the Commander received information that Sheikh Yussafiollbraium had organized an attack by sea from Dora on Koweit, while his friends were to co-operate by land, and the "Lapwing" accordingly proceeded at once to Koweit. There

already been received of what was intended, and he was informed that two suspicions-looking dhows had been seen that day by Koweit fishermen near Falaka island Accordingly, the "Lapwing" proceeded next day to a convenient position between Fao and the entrance to Khor Abdullah, and sent bouts to examine all passing shows. Two dhows full of attrocd men having refused to stop when ordered to do so, and having threatened to fire on the hoat which bailed her, three other bonts were lowered, and, with the Captain in command, pursued the two dhows. The latter attempted to enter the Shat el-Arab but were cut off by the boats, and were finally driven on shore at a place between the Shat-el-Arab and the Bahmeshir River, and the crews, numbering at least [1518].

100 men, waded through the mad to land. Concealing themselves in the reeds, they suddenly opened a heavy fire on the "Lapwing's " boots as they approached, killing one seamen and slightly wounding two others. The boats fired in return, but owing to the parates being concessed, the Commander is unable to say exactly with what effect, but he believes that five or six Arabs felt. Finally the heats were able to bring away the dhows. which are now anchored in the Shatt within the " Lapwing

It is unnecessary for me to point out to your Excellency the serious nature of this occurrence, in which a seaman of the Majorty's navy was mordered. Such evidence as is available indicates the culpability of Torkish subjects from Dora and of Yussuf-el-Ibrahim in the matter, and no doubt your Excellency will take immediate and energetic measures

for a full investigation.

The above information was communicated to your Excellency by me verbally this morning

YOUR letter of the 8th instant was received verter by t t 201 H As 1 16 you during our interview, with regard to the two "cayiks" seezed by the war-alop "Lapwing," and brought here with their gear, so well as the killing of one of the "Lapwing's" erew, as soon as news of these events was received from the Mudir of Pao, inquires of a thorough nature were at once made. In the first paragraph of your letter, it is asserted that the Commander of the "Lapwing" had received news of a joint attack on Koweit to be made at sea by a company formed by the Sheakh Yusuf-el-Ibrahim, and on land by his partisans. In reply, I bog to state that it is clear from the contents of the reports furnished by officials sent especially to conduct inquiries that their having been found in a state of preparedness for such an attack on Koweit from the Zobeir direction is quite unsubstantiated, and a mere rumour of ordinary "circumstances" such as sometimes occur among the tribes.

[Undated.] IN continuation of my No. 70 of the 19th matent, I have the honour to report that his Excellency Sardar Arfa has informed me that he has interrogated Navir, the man who arrested the twelve men suspected of complicity in the attack on His Majesty's ship "Lapwing's" bonts on the 5th instant.

Name is the head of the Bu Marif section of the Muhaysin and of the Manyuhi district. His evidence reduced to narrative form from the questions and answers taken

down by his Execulency's clerk is as follows :--

About two and a-half hours after sunset on the night of the 5th instant, I sent Mohamed-bin-Abdulnabi to tell the fellahs to bring dates to the packing shed. Mohamed, on leaving the gardens, saw three men and some others in the grass. He went up to them and naked them who they were : the others then came up, making ten.

They said, "We tell you in confidence we want to cross the river and will pay your

450

4 krans for doing so [sic] secretly; we are afraid of being seen."

This, and the fact that they were armed, aroused his suspicions, and be brought them to the Mudif where I was. I lighted a lamp, and called some of my men and disarmed them, finding they could not give a satisfactory account of themselves, and put them under arrest till morning

I then went to the roof of my house to sleep. I heard some people passing below, I called out, "Who are you?" The man with them repaid, "Two of Bin Brahim's men, who want to cross the river " I gave orders to arrest them. I have been told that some of the arrested men said they had been to Koweit to act in conjunction with Bin Braham's friends there, but seeing a man-of-war they were frightened, and had been pursued by the man-of-war, and had had a fight.

I heard that Gharib's wife was weeping because her baby was dead, and this was not true. I now understand that a relative of hers had been killed or wounded.

The three other rides were brought to me in the morning from one of the other bandets of Manyhi. The man who brought them said that three men had been his guests last night, and he was " to have ferried them across the river in the morning. He took their rifles, and went to sleep. In the morning they had disappeared, leaving their rifles. I sent the men and rifles under goard to Faha,"

Gharib is the man who was with the two suspects fast arrested, Tymer and Jumfa, and his wife is a relative of these two men. They stated, when examined, that they put

up at the boose of Gharib.

Commander Cartieright to Rear-Admiral Drury.

HAVE the honour to report that His Majesty's ship "Sphinx" and that I took over the duties of Schior Naval Officer, Person Gulf Division, on that day. His Majesty's ship "Sphinx" sailed for Bon har on the 5th September.

I sailed from Muscat on the 6th September for Bushire, but, owing to a strong "shamal" in the Gulf I did not reach that place until the 10th September, when a recovered your telegram ordering me to Kowett after conferring with the "La, wing" at Bussorph

3. Owing to the draught of the "Cossack" I am unable to cross the Shat-al-Arib bar except at spring tide, although on an emergency, by "posting" through ... man, a might get over. I therefore telegraphed to the "Lapung" to meet me notside on the morning of the 12th September.

4. I sailed from Bushire on the 11th September, and acrived outside the bar at the light on the 12th September. The "Lapsung" was there at anchor and I negared full outside affair, and it would appear that the Turks are trying to make out that it was only an ordinary case of paracy, and not an organized attack, and that there was also great difficulty in getting evidence. I proceeded to Kowert at 9 a. it, and arrived at that place the same evening, where I found His Majesty's thip "Redbreast," who had arrived town Musest that morning.

5. There is very little doubt that the shows were manned and equipped by Yusef-bio-Ibrahim, a rich and influential Arab living at Durab, a place in Turkish territory on the Bussown Biver bio t 10 c desplay Face of mattacting my hall-adment, one Sheikh Mahomet, the then Ruler of Koweit, the present Sheikh (Mubarak) gained the place:

Yusef-bia-Ibrahm married a sister of Sheikh Mahomet and has ever since been an inveterate enemy of Sheikh Mobarak, and some years ago attempted a similar expedition against Koweit. From the information I have obtained it appears that a force of about 450 Arabs was raised from Zoheir, Durah, and other villages in Turkuh territory, and even Bussorah itself, 300 were sent to raid by land, and about 150 in the dhows. The land force looted some sheep and camels at Serwan and Soobeyah, and then dispersed. I am unable to imagine what Yusef expected to do with the small number of men in the dhows, unless be had got partisans in Koweit itself and hoped to make a dash at Mubarak's house, which is by the sea, and murder the Sheikh himself before the townspeople could make an effective defence. There is no evidence to show that the Turks took an active part is any way, but it is probable that some of their officials knew what was going on. The action of the "Lapwing" will probably be a great sheek on the intrigues of Yusef, besides acting with deterrent effect on the ordinary river puractes

6. In this affair Lieutenant and Commander Aristrong acted with great dash, resolution, and gallantry, and I consider that its access and the exemplary behaviour of the men under very trying circumstances is due to his personal example. He personally led his boats, and the chase covered about 12 miles in the intense heat of a summer month of the Person Gulf. When the larger hoats grounded, he still advanced with a gig and whaler, and was exposed to the fire of about 150 Arabs at a range of about 100 yards, tosing one man killed and two wounded in his own boat. His action will greatly increase the prestige of the British navy among the Gulf Arabs, who fully realize the fact that, in an te of resistance, 150 Arabs armed with rifles were beaten by about one-little the number of British bluejackets, also only armed with rifles. It will also have a very good effect on the desorderly characters on both sides of the Bussomh River. Lieutenant and Commander Armstrong in his Report has, of course, not referred to his own gallant conduct, but, at Senior Officer of this Division, I beg to submit the actails that I have gathered of this plucky action, with a view to your most favourable consideration of Lieutenant and Commander Armstrong's personal bravery.

7. I interviewed Sheikh Mohatak on the 19th instant, but although he had important witnesses, he was very averse to allowing them to go to Busiorah to give their evidence, as he would not trust them with the Turks, who, he had, in apite of our supervision, would capture and imprison them, if not worse. In this he may be right, we i arranged for him to collect his witnesses on the 15th instant, when I would examine them under oath, the Mahommedan priest, before whom their most blinding onthe are sworn, being in attradance.

S. His Majenty's ship "Redbreast" sailed for Bushire with my telegram to you on the 13th instant, and after coaling will proceed to the Shat-al-Arab, in accordance with your orders. I have informed Lieutenant and Commander Armstrong that, having now two gun-boats for the suppression of piracy, I consider that one should always be stationed outside the bar, as most of the piraces occur on the banks between Khor Abadia and Khor Bahmabar.

9. I landed on the 15th instant, and examined four witnesses who were at Durah on the 2nd September. They all aware that they saw the armed men being put into the dhows on that day about 7:30 r.m., and that they were informed that the dhows were to attack Koweit. They also gave the names of five of the chief men with the party, and attack that Yunef-bin-Ibrahim himself as the men into the dhows, but returned to be bouse when they sailed. Other witnesses also swore to the dhows which the "Lapwing" captured being Yusef-bin-Ibrahim's property.

10. I am in hopes that this evidence will force the Turkish authorities to take action against Yusef-bin-Ibrahim, but it is probable that, unless one own Government press the matter very strongly, he will escape punishment by means of bribes.

11. I sailed from Koweit on the 16th instant, and arrived here this evening.

12. About one-third of the ship's company are suffering from boils, fourteen of whom

are incapacitated from duty. The Medical Officer is of opinion that this is due to the men having run down, owing to the time they have been on the station. With this exception, the health of the ship's company is good.

On the 31st May, I received information from Fao that Sheikh Mubarek had arrived in the Shatt-el-Arab with a fleet of buggalows reported to contain armed men in connection with a piracy which had been committed on a Koweit boat. On receipt of this information, bring anxious to prevent the occurrence of any imprudent act on the part of the Sheikh which might give rise to future trouble. I sent a message to Sheikh Mubarek advising him to return home, and to submit a report to me about the piracy, regarding which I had as yet received no information.

I also communicated with the Senior Naval Officer in the Persian Gulf and desired him to send a ship to Fao, and if Muberck was still there, to advise him to return home. I asked the Senior Naval Officer to be so good as to obtain for me all the information which he could about the piracy, so that I might be in a position to submit a report on the subject to the Government of India.

The Senior Neval Officer was not able to comply with my request at once, but His Majesty's ship "Sphinx" arrived at Mohammersh on the 15th June, Sheikh Moharek

Q. What is your name ?- A. Gharib.

Q. What is your father's name? -A. Abdul Kerim. Q. Of what country are you a subject ?- A. Pers ..

Q. Where do you reside ?- A. Manyuhi.

Q. What is your native district ?- A. Behleban-n-Kajeri

Q. What do you know of these robbers arrested by Nazir ?- A. Two of them (one called Rashid); I do not know the other's name.

Q. These men know you?-A. One of them, that is Rashid, is related to my wife. Q. How did they come to your house? - A. At night we had dinner when they carr. a boy brought them to the door of my house and showed them that "this is til riles house," I asked the boy who they were, he said "two guests have come to They entered the house and I gave them dinner. They asked me to ferry them across; I replied, "what is the hurry? Wait till the morning." They insisted on being put across that night. I went with them to put them across; we arrived near the bridge which is near the house of Nasir bin-Mutrag, the Headman of the village. Nasir from the roof of his house asked "Who are you?" I replied "I am Gharsh." He said "Who are those with you?" I replied, "Mon of bin Brahim; one (who is Rashid) I know, but not the other." Nasir said "they are some of those." Nasir sent and took their weapons, and wanted to take them to the others. I became surely that the state of the s wards, we went to the house and sat down, and they drank tea and slept till early morn.

I asked them what is this matter? What are these arms? Tell me your story, Rashul said "the son of Sheikh Jerrah gave us money, and said 'go to Koweit,' for they have killed my uncle, and perhaps taken Koweit." On this account we went to near Koweit and put two men ashere to go and obtain news of Koweit. As these men were a long time, we became suspicious and frightened, and jecturned till we came to be lead to the rectary that the constraint and cut us off from our way, till we can the boats ashore on the mud, fled every one for himself, and in the pursuit we fought with the vessel."

Q. From where do you know that Rashed in the man of bin Braham?-A. Yes, I know that Rashid is the man of bin Brahim, for I at first myself hved at Dawra, and was aware of it. I know for certain that he is "big Brahim's man"

Q. Gharid! In what you have said entirely true? Speak without fear of . . . pulsion, speak nothing but the truth. Shall we be witnesses to you?-A. Before God all I have said in true, without increase or decrease; be witnesses, to-day is this world, to-morrow the day of judgment, this is my evidence.

The person that Gharib states is a connection of his, named Rashid, and who came to his house (and that person, in his examination, formerly acknowledged his relationship to Gharib and his going to his house, but gave his name as Jumaa) was produced among reversi other prisoners, and Gharib pointed him out as Rashid, and said he bad known him as Rashid for some years. That person acknowledged his relationship to Ghari's, and that he went to his house, but insisted that his name was Jimaa. In any case, there is no doubt as to the individual, and by external evidence and his own confession be is the man. As to his name and the difference or mistake as to it, that is a matter for separate inquiry and settlement.

In the presence of the Government, the Kargugarati and Consulate, Gharib gave the above evidence, and the final majury was made by us.

Lieutenant-Colonel Komball to Government of India.

(Confldential.) Shiras, Beptember 6, 1902. I HAVE the honour to forward copies of two letters received by me from Sheikh Muharek of Kowett.

With regard to the letter, dated the 12th August, which was received in Bushire on the 27th idem, the Government of India will have learned from His Majorty's Consul at Bossorah that the Sherkle's Agent has been sentenced to 10 years' imprisonment

With regard to the letter dated the 26th August, what Mubarek says is perfectly true. The defeat of the Ibn Sacod party by the Amir of Nejd will probably result in trouble for the Sheikh of Koweit, who has everything to gain by the ultimate success of the Ibn Sacod. At the same time Sheikh Muharek must know that it is impossible for us to countenance his support of the 1bn Sacod. I have always advised him to hold aloof from the quarted which is now going on, and he has told me that he would do so, but he is so deeply interested in the matter that I am mable to believe that he has not, indirectly at any rate, assisted the Ibn Sacod cause. The only coply which I could send to this portion of Mubarch's letter would be to advise him again to remain neutral, but I see no advantage in repeating the advice.

I do not know whether the Government of India could see their way to give the Sheikh the guns which he requires. I understand that he wishes to have Nordenfelt there is a note wider narely fit to finite protection to land attack. There is no doubt that the gaft would be much appreciated by the Sheikh, who, in the difficult times through which he has recently passed has, I believe, always been firm an his attachment to the British Government, and is anxious to reigain so.

2. On the 3rd September, I received a telegram from the Creek in charge at Fao to the effect that Sheikh Jabar, Sheikh M sharek's brother, had brought to Fao a letter addressed to me containing information that the two sons of Mahomed Sabah (Munarek's murdered brother) with 200 armed men had left. Dora the previous night with the object of attacking Koweit. He asked that a man-of-war might be sent to Koweit to warn Sheskh Muharek. There was no man-of-war in Businee, and I therefore directed the R.I.M. ship "Lawrence" to proceed to Koweit to carry the information received by me to Sheikh Mubarek, in order that he might be on his guard. Meanwhile it appears that the Commander of His Majesty's ship "Lapwing," which was in the Shatt-el-Arab, had visited Kowett eit er in the usual course or in consequence of special information received as to the impending attack on Koweil. When the "Lawrence" arrived in Koweit on the morning of the 5th instant, the " Lapseing " had already left.

3. The "Lawrence" brought back from howels a letter to my address from Sheikh Mubarek, the translated purport of which I had the honour to forward berewith. Mubarek complains against the constant annoyance to which he is exposed at the hands of Yusufer Ibrahem, and he instances a recent attack on Subjeh, and the intended attack by sea in Kowert, which was apparently trustrated by the action of the "Lapwing." His evident g is, that he, in accordance with the previous instructions which he has received trans I Majesty's Government, has not proceeded to earry out represels for the milk to which he is constantly exposed, and he expects that we the proof to Yuant-el-throbon from annaying him. I trust that His Mojesty's Government will be as to let me have a report of the recent occurrence.

(Confilent at) (Telegraphic.)

September 6, 1902. ON "Lopwing" arriving Kowert they learned that Muburek had already received information regarding the armed boglas. Captain Armstrong was told they were in the Khor Abdulla, which place he proceeded, where he saw several buglas, two of which retused to be searched—they were flying no Sag, and were crowded with armed Arabs, and iled away, trying to come up the Shatt-el-Arab-the "Lapwing "managed to get between them and the river. They then sailed towards the Bahmashur, landing mid-way between the rivers and beaching their buglas. Captain Armstrong with three or four boats went after them with forty blue seckets, but were fired on from the shore by the Arabs, who, Captain Armstrong estimates at 150; he returned their fire, and thinks he has killed about six Amba; one blocacket was killed and two slightly wounded, and several had narrow escapes, bullets having passed through their clothing and helmets. Captain Armstrong's boat, which was nearest the shore, was radded with bullets. The Arabs' fire was very straight. Captain Armstrong captured the bugins, in which there are few things and articles of clothing. He tried to get permission to bury body here, but was disultowed, the Bussorah authorities having to get orders from Constantinople. He proceeded up the river to Mohammerah this morning to bury the body, after which he steams to Bussorah.

(After compliments.) lst Jemad-el-Thani, 1320 (September 5, 1902).

ON the 22nd Jemad-el-Awal (27th August last) Khaled-bin-Ada, resident of Zubeir, in conjunction with Shaki (ruffian) Yasuf-el-Ibrahim's men, went from Zubeir to Setwan, and wized three names and five camels, which a merchant had purchased from the Anexa tribe for merchants on our side. They also took muc houses (tents ?) belonging to my tribesmen, together with their animals and property, and then returned to Zubeir

On the 30th August last, Shaki Yosul got ready Mubarek-el-Azbi and the som of Mahomed (Sabah) at Zubeir with 100 camela and 20 horses, with a view to attack my flocks at Jehara and Subbiya. They came near Jehara but did not attack it and went to Subbiya. On Monday morning they reached there, attacked the Subbiya people, and wounded them with bullets. The Subbiya people repelled the attack, and

drove away Mubacak-el-Azhi and his following, who returned to Zubeir.

Forthermore Slake Yusuf engaged at Doura 200 men from Bussorah and its environs and sent them in ships with the sons of Mahomed (el-Sabah). On Wednesday, eight bours after sunner, they arrived at Felika and anchored there, waiting for nightfall when they wanted to attack us suddenly. I became aware of this. A man-of-war came. The had received the information at Fao, and when she arrived, which was at four hours after sunset, they (the boats) gave up the idea of attacking us. It is possible they came to this conclusion after seeing the man-of-war. All these preparations were made to the Villayet of Bussorah itself, and from Dours and Zuboir. Shake Yusuf is now with them (the Turks) in Bussorah.

Moreover, I sit quiet (but as a result) I find ill-treatment at the hands of the Turks. My brother Jabie had with him twenty men for the protection of my dates as usual; such is the custom with all date-garden owners. The Bussorah Government has prohibited these men, and has ordered their return to Koweit. Again, with regard to Koweit boats which is I would all Busser hand its dependences, the Turks have ordered that when an of such boats want to load dates at Pao and its dependences, they should go up to Bussor had been dependences for their

carge I . . . due to their quite and there wish to injure me.

I have also heard that Shaki Yusuf and the some of Mahoined (el-Sabah) wish to attack my property in Businesh. I am under your protection and my property and affairs are in that of the British Government. I sit quiet, but I find my affairs are getting damaged. I am writing to you thus, and have full hopes that you will not like even a slight injury overtaking me. At present great injuries are being done to me and my property in I and my people are tired of the troubles which the Turks cause; they have been Yusuf-el-libration near them, and be creates all these troubles and sogges armed the rom Dours and Zuberr. You will not agree to these sorts of troubles befolking me, it is, therefore, sout Haji Ali-bin-Ghulam to you and hope to receive pleasing news and see all the troubles put a stop to.

I HAVE the honour to forward copy of a letter from the Assistant Political Agent at Babrein, and to say that, in my opinion, it is quite probable that the information, which, it is said, has been conveyed to Sheikh Mubarek of Koweit, emanated from the Russian Con-

sulate in Bustinge.

I have recently heard on reliable authority that the Acting Russian Consul-General, who is now in Shiraz, has been trying to induce certain Russian subjects, who buy skins in Persia for the Russian market, to open up a business at Koweit, and has promised them to send them a man of his own to look after their interests if they go to Koweit.

The News Agent further states that Najaf is on intimate terms with the Russian Vice-Connel at Rushire, and whenever he writes to his brother be usually requests him to convey to Sheikh Mubarek the Russian Vice-Convul's compliments, and offers to give his assistance whenever the Sheikh requires it. The News Agent also remarks that, though Sheikh Mabarek may not credit Najaf's report, it will, however, make him that it.

The Russians understand the Mahoumedan character and their distrust of Christians generally, and, if the report is true, they have chosen the most effective means of sowing the seed of suspicion in Sheikh Mubarek's mind, and probably they will send forther distorted news periodically through the same source with a view to abministe all trust in our Government. I would venture to suggest that the first opportunity be taken to disabuse Sheikh Mubarek's much so regards our intentions referring to Koweit.

Mohammerah, September 6, 1902.

I HAVE the honour to report that His Majesty's ship " Lapwing" arrived here this afternoon with two captured "bums" in tow. Her Commander informs me that, on arriving at Fao on the 3rd instant, he received information of an intended attack on Koweit by land and sen. He proceeded there and found Sheikh Muharek warned and fully pre-

pared, and heard that two suspictions vessels had been seen.

Next morning he proceeded to search for the dhows, and anchored in Khor Abdulla, and had boats out craiming. Yesterday morning when all but the cutter had returned, the cutter signalled for assistance. Captain Armstrong with all boots armed went to her assistance. He learned that the carter had harled two dhows, who had threatened to fire if the culter came alongside, and were crowded with armed men. The boats pursued and cut the dhows off from the Turkish wile. They then made for the channel leading from Gueba to the Bahmashir and ran the dhows ashore, and, deserting them, waded to firm ground, where they took cover in the long grass. The leading boat got on the mud and become unmanageable, a strong tide excepting her up the creek; Captain Armstrong was in this boat. When about 100 yards off the Araba opened a heavy fire, which was returned by all boats. One seaman was killed and two wounded. The Arab low is unknown, but believed to be eight or ten. The Arabs retreated, and Captain Armstrong succeeded in floating the two "burns," and then returned to his ship. At Fao he was told the "bune" belonged to Shokh Yusuf-bin-Brahon's village, Dawrs. They contained many small bugs of cartridges, both French and Engrah, and several pairs of saddle-laugs, in one of which was a sent assembed Abmed-bin-Mahammad.

It is estimated that there were 150 men in the two "burns."

After burying the dead man this evening and visiting the Sardar Arfa, the "Lapwing " will proceed to-morrow to Bussomh to confer with His Majesty's Consul there.

Rear-Admiral Drury to Admiralty.

Trincomalee, October 8, 1002.

WITH reference to "Lapwing's" letter of the 7th ultima forwarded direct to Admiralty, the duplicate of which I have just received, be pleased to inform the Lorda Commissioners of the Admiralty that I have approved of the action taken by the officer . commanding His Majesty's slop " Lapwing" on the 5th September last

It is asserted that an influential Amb organised, on Turkish tecritory, a plot for the murder of Sheikh Mubarek of Koweit, and that the abows, fided with acuted map, were to proceed to a certain point near Knweit, act in conjunction with a land force of Araba, and surprise the Sheikh by a night attack with the object of killing him and then to return to their boats and disappear

Whatever was the object of the two armed shows it was entirely upset by the promptitude of the "Lapwing," and I consider Lieutenant-Commander Armstrong is to be highly commended.

Had Sheikh Mubarek on the night in question been murdered in the manner. it is suggested, it would undoubtedly have led to inconvenient complication in the Persian

The loss of Daly, able seaman, is to be deeply regretted. I have directed that the dhows be retained for the present, and would suggest with reference to Article 304 of the Manual of Naval Prize Law that I may receive permission for them to be destroyed. If there is no diplomatic or other objection, I would propose that they be burnt in the Shatt-el-Arab, near Dura (to which port they belonged) for the sake of example and a war ig against piratical acts, for the suppression of which we are acting in co-operation with the Turkish authorities.

I should like to further bring to their Lordships' notice the names of Sub-Licutonant Rowbotham, Mr. Vugler, Gunner, and the men mentioned by Licotenant and Commander Armstroog for their creditable and gallant services, and also the Telegraph Superintendent t hao, Mr. Lovell, whose prompt action in informing the Officer Commanding His Majesty's ship "Lapwing" of the proposed attack was no doubt the cause of Koweit not being assaulted, whatever the result might have been

The "Cossack" was at Koweit on the 16th September collecting evidence, and I expect to hear the result shortly, and will communicate the same for the information of

their Lordships.

IN continuation of my letter dated the 21st September, on the subject of the "Lapwing" meddent, I have the honour to forward copy of a despatch No. 66, dated the

13th idem, to my address from His Majesty's Vice-Consul at Mohammerah,

From this despatch and from the telegrams on the subject transmitted by II . Majesty's Consul at Busiorah to the Ambassador at Constantinople, copies of which have been forwarded to the Government of India, it appears to be conclusively proved that Yusuf-bin-Ibrahim organised the expedition against Koweit which was frustrated by the action of His Majesty's ship "Lapwing." I vonture to suggest that, if the Turkish Government does not now take steps to put a stop to the said Yusuf-bin-Ibrahim's enterprises against Kowen, it might be advisable for His Majesty's Government to reconsider its decision regarding the occupation by the Turks of Um Kasr and Boobysti.

The villages at which they reside are all situated on the Turkish side of the tiver and near Bussorah.

So far they have refused to make any confession. It is proposed that, on the return of this Majesty's ship " Lapwing " in a day or two, they should be interrogated one by one in the presence of Captain Aruntrong, the Karguzar and myself

The man Ahmed-el-Asusi, whose seal was exptured, is well known as being in the employ of Bin Braham.

I have seen the fitteen captured rifles, with the exception of three or four, all are perfectly new, but stamed with mud and water. Most of them are of Birmingham tenke

The Surdar Arfa says it is useless trying to put a stop to pimey as long as Bin Beahim is not prevented from making these naval expeditions. If he were banished from these parts, it would be a great step towards securing the safety of the river.

Constantinople, November 20, 1902. My Lord,

I HAVE the honour to inclose herewith to your Louiship the paraphrase of a

tele ran received yesterday from His Majesty's Consul at Bussorsh

Mr. Wratulaw reports that the partizans of the Emir of Nejd are gathering an armed force, and that 200 men started a few days ago from Zobeir in the direction of Sofwan on a rading and plundering expedition against the tribes under the protection of the Sheikh of Koweit. He adds that the Vali is probably cognizant of these proces dings, and that if they are not stopped they will entail untoward results.

I sent Mr Block to the Porte in the afternoon to communicate the substance of this telegram to the Minister for Poreign Affairs. He was instructed to press the Munister to have the Vali cautioned very seriously and told to put a stop to these raids, and he was to remind his Excellency of the assurances given to His Majesty's Government to respect the status quo of Koweit, and that His Majesty's Government would not allow an attack upon that place.

Mr. Block was also instructed to warn his Excellency that such expeditions would probably land the Ottoman Government in serious difficulties sooner or later, and to state that we were now collecting information respecting the proposed mid organizated by broad broken and to Show if had a plant sell of the Ottoman territory; that there was strong presumptive evidence of the Vali's knowledge and tacit approval of this expedition, and that this presumption would be greatly are a level by the Zober's milest of the promptly out power by the Imperial

Mr. Block added that I reserved the remarks and demands I might later have to make in connection with the Koweit expedition and its fatal consequence in the loss of life and the wounding of British sailors, but that, in the meantime, it was obviously the duty as well as the interest of the Imperial Government at once to check the dangerous energy of the Vali of Bussoush.

Tewfik Pasha replied that he would immediately report my representations to the Grand Vizier, and that he expected inquiries would be at once addressed to the Bussorah authorities, and orders given in the desired sense,

(No. 61, Confidential.)

Busserah, November 7, 1902.

I HAVE the honour to report that, on receipt of your Excellency's telegram of the 31st ultimo, I wrote a letter, copy of which is inclosed herewith, to the Vali of Bussornh, informing him that the "Lapwing" had brought up five witnesses from Koweit in place of those whose depositions were previously taken by the Commander of the "Cosmek," and who had since left the place, and requesting his Excellency to make arrangements for their examination in such a manner as would enable the Commander of the "Lapwing" to fulfil his promise to Sheikh Mubarek that he would not let these witnesses out of his mght. Immediately after dispatching this letter, I called on the Valu with Captain Armstrong to discuss the matter, and informed his Excellency that the only methods I could think of were either for the Mustantik to examine the witnesses on board the "Lapwing" or for the Commander to accompany them to the Court, he present during their examination, and escort them back when it was over. The Vali at once replied that he could not entertain either of these proposals for a moment. What business had Mubarck (who, he complained, had left the two telegrams sent him about the other witnessen unanswered, and had not communicated at all about the second lot) to impose such conditions? Witnesses were par t sife tone is not in it has been used to an experience of the first terminated their being any anxiety on their account. I replied that I was not in the Sheikh's confidence, but I understood that both he and the Sheikh of Mohammerah (who raised maniar difficulties about sending two of his subjects to Bussorah to depose in this matter) appeared to think that their men might be exposed not only to the exaggerated detention which in Turkey often made the lot of witnesses in criminal cases little more enviable than that of the accused, but also to attempts at intundation and possibly assassination on the part of Yuanf-el-Ibrahim. His Excellency laughed this auggestion to ecorn, but I reminded him of incidents which had occurred in Bussorali and which showed conclusively how only it was for a man of great local influence like Yusuf to put out of his way persons who thwarted him. The Van raphed that this was in the time of his predecessor, and we then turned to other aubjects,

Subsequently I received an official reply to my lotter, of which I inclose a translation, and yesterday I took the depositions of the five witnesses at the Consulate, They all awore on the Koran to the truth of their statements, and the manner in which they gave their evidence impressed me very favourably. From the inclosed translations your Excellency will perceive that four of these men were on board a small Koweit dhow which was anchored off Dora Creek the evening that the expedition aniled, and saw the armed men go on board the dhows and also saw and heard Yusuf-

el-Ibrahan see them off.

They left at once for Kowert to inform the Sheakh, but found that the news had

The fifth witness was for two years captain of one of the dhows captured by the "Lapwing," and recognized her unhesitatingly as being one which had belonged to

Ymaf-el-Ibraham.

I inquired of these witnesses whether they knew an Ahmed-bin-Mohammed As oust, whose seal was found on one of the captured dhows in a small bag with other to the fact of a few rules. They discussed that he was a N khada in the service of Yusuf-el-Ibrahim, and left Koweit when his master broke with Mouharek in 1896. This entirely agrees with private information I have obtained from other sources, and I also learn that Ahmed-lim Mohammed As'ousi was one of the two men who landed nt night near Koweit from the dhows to obtain information, and who were left. behind. This would account for his bag (the native equivalent for a purse) being left. on board. He is well be sen locally as here a confidential act out of Yasafa, and yet the Vali has the effrontery to assure me that he has made active inquiries concerning him and can learn nothing of any man of that name except that he hears there are people of that name at Kowert.

I am quite hopeless of being able to procure a conviction against Yusuf-el-Harman and the St. htt. . he we stath we free the matter into the Crammal Court. No local witness will come forward for fear of Yusuf and the Vali; and no witnesses from outside will appear except under conditions which we are unable to

Doubtless the Vali knows this perfectly well, and it is for this reason that he shelters himself behind the judicial authorities and refuses to stir a finger administratively. I trust, however, that I have supplied your Excellency with sufficient nee to support a diplomatic demand for the exile from these parts of Yusuf-el-Ibrahim, Khalid-es-Sahah, and Hamoud-es-Sahah. As I have already had the honour . to state, Koweit will never be safe so long as they remain in these regions; and a good precedent exists for their boing sent away from it. In 1897, after Yusuf's abortive attack on Koweit by sea, the Porte did not besume to exile him without trial, and it was only last year, at the request of Ibin Reskid, that he was allowed to return.

I should correct a mistake I made in my telegram No. 62 of the 14th September to your Excellency. It was not Khahd, son of Sheikh M hammed-es-Sabah who was on board the dhows, but his consin, Hamond, son of Jerrah-Khalid, has been engaged al' the summer in raiding Koweit flocks from Zobeir along with Ibm fleshid's agent,

I inclose a copy of my flual communication to the Vali forwarding copy of the depositions, and have, &c.

No. 237

Sir N. O'Conor to the Marquess of Landowne .- (Received December 8.)

(No. 529)

Constantinople, December 2, 1902.

W. II reference to my telegram No. 107 of the 28rd October last and to my despatch No. 50- of the 20th ultimo, I have the bonour to report that I spoke to Tewtik Pasha yesterday to the following effect in regard to Yusuf Ibrahim's attempted raid upon Koweit early in the month of September and

I mid I had received a voluminous mass of evidence taken on board the " Lapering" after the Vals of Busserals had refused either to send a Turkush Magnetrate on board to take the depositions of the witnesses who had been brought from howeit. or to allow the Consul and Commander of the "Lapwing" to be present in Court while the depositions were being taken.

I said that I had not yet unded through these reports, but that I feared when I aid so, there was little doubt that they would show the direct compleity of Yusuf Bushim and of the Sheikh of Kowert's two nephrive, and, possibly, also the complicity of the Vali, of whose connivance in the affair we had already ground for reasonable s espicion

I urged upon his Excellency that the Ottoman Government should themselves take the initiative of punishing Yusuf Ibrahim and the Sheikh's nephews by removing them from Bussorah, and by otherwise letting them understand that Turkish soil could not be made use of for organizing bortile expeditions against the Sheikh of Kowert. There was the more reason for taking this course that the Imperial Government had formally recognized the status quo of Koweit, and given assurances that no attack was contemplated or would be made upon his territory. I added that if the Ottoman Government did nothing in the some indicated of its own accord, the time would probably come when I should be instructed to ask for more serious reparation. seeing that the lives of some British sailors had been sacrificed in frustrating a Elibustering expedition organized upon Ottoman territory.

Tewfik Pasks gave me to understand, as is his wont, that he agreed with my observations that he would refer the matter to the Grand Vizier, and that as soon as a decision was taken he would not fail to communicate it to me

Rear-Admiral Drury to Admiralty

Sir, "Highfyer," at Trinconalee, October 3, 1902.
WITH reference to "Impring's" letter of the 7th ultime, forwarded direct to Admiralty, the duplicate of which I have just received, be pleased to inform the Lorda Commissioners of the Admiralty that I have approved of the action taken by the Officer Commanding His Majesty's ship "Lapwing" on the 5th September last.

It is asserted that an influential Arab organized, on Turkish territory, a plot for the murder of Sheikh Mabourck, of Koweit, and that the disaws, filled with armod men, were to proceed to a certain point near Koweit, act in conjunction with a land force of Arabs, and surprise the Sheikh by a night attack, with the object of killing him, and then to return to their house and disappear.

Whatever was the object of the two armed dhows, it was entirely upact by the promptitude of the "Lapwing," and I consider Lieutenant Commander Armstrong is to

by lughly commended

Had Sheikh Mabourek on the night in question been murdered in the manner it is suggested, it would undoubtedly have led to inconvenient complication in the Persian Gulf.

The loss of Daly, Able Scaman, is to be deeply regretted. I have directed that the dhows be retained for the present, and would suggest with reference to Article 304 of a loss of Naval Prize Law, that I may receive permission for them to be destroyed. It is no diplomatic or other objection, I would propose that they be barnt in the Shat-al-Arab, near Dura (to which port they belonged), for the sake of example and a warning against printical acts, for the suppression of which we are acting in co-operation with the Turkish authorities.

I abould like to further bring to their Lordships' notice the names of Sub-Lieutemant Rowbotham, Mr. Vugier, Gunner, and the men mentioned by Lieutenant and Commander Armstrong, for their creditable and gallant services, and also the Telegraph Superintendent at Pao, Mr. Lovell, whose prompt action in informing the Officer Commanding H. Do not consider it feasible or desirable to send captured dhows to Aden or Bombay, and, therefore, request approval to sentile them in the Persian Gulf, over 3 mile limit, if the proposal contained in my letter of 3rd October is not approved. Evidence just received clearly shows they were armed dhows belonging to Yusef-bin Ibrahim, bound to Koweis, apart from fact that they first opened five on the "Lapring's" boat. Evidence follows by post.

In view of the instructions contained in your Excellency's telegram of the 3rd November, that I should be careful not to admit the Vali's pretention to consider them as Ottoman subjects. I thought it advisable in my reply (copy inclosed) to refer to these men as "subjects of Sheikh M thrick" which, I hoped, would be a sufficient reservation without formally raising the question of their status. The Vali, however, at once pounced on my phrase, and, in his reply, of which I inclose a translation, requested me to correct it. Bussoroh, October 27, 1818 (November 9, 1902),

AFIER perusal of your letter No. 116 of the 6th November last, since, as you are aware, the matter lies in its judicial aspect within the province of the judicial procedure prescribed by the Law of the State, both the letter and the papers containing the depositions in writing were referred and hinded over to the judicial authorities. Thereon a Minute backed by a separate communication in due form was made to the effect that the said written depositions could not be made use of by the Law Courts, and that on the authors of the depositions coming in person to the Court of Inquitions there made: in pursuance of this, summonses were drawn up to the names of the persons in question, who are Ottoman subjects, and, according to rule, forwarded to the Kalmakam of Kowert.

In the first paragraph of your letter figures a sentence concerning these men have a Schill of St. It M. I. I. Should have a meant, of course, Muharek-el-Subah Pasha; the said Pasha is Kafinakam of the Cara of Kowelt, which is part of the Imperial Dominions, and the individuals in question are people of the same Cara; and since they are all of them Ottoman subjects, the sentence about "Shoukh Muharek" cannot be accepted by the vilayet, and it is requested that it be smeaded.

Moreover, in the last paragraph of your letter, it was stated that the course of events made it clear that the local authorities did not consider it their duty to bring to light the truth about the "Lapwing" incident. Now, it is a clear fact, as will be at any time evident on examining the current proceedings, that immediately on receiving news of the "Lapwing" incident, the vilayet set to work to make inquiries of every sort, and that on the matter being duly referred to the judiciary, hasto was made to get to the bottom of the matter according to the judicial procedure of the land. And I has to declare that not used to reliable the matter in question.

From the inclosed correspondence, it appears to me that the action of the keed Turkish authorities has been such as to show their sympathy with the attempted attack on Koweit, if not their indirect co-operation, and I quite concar with Lieutenant and Commander Armstroag that it would be desirable to represent the matter to the Turkish Government at Constantinople. To call upon them for the punishment of Yusunf-bin-Ibrahim and the leaders of those who took part in the expedition would be desirable, if that end could be attained.

(Signed)

CHAS. C. DRURY, Regr-Admiral, Commander-in-chief.

Inclosure 2 in No. 253.

Lieutenant Armstrong to Rear-Admiral Drury.

Sir,

I HAVE the honour to report that I proceeded to Koweit on the 15th October, and managed to persuade Sheikh Moubarak to let me take back to Bussorah six witnesses against Yussuf-biu-Ibrabim; to do this, I had to promise not to allow them out of my presence, as Sheikh Moubarak was afraid they would be entired away and ill-treated or muriered.

2. Five of these men were in a dhow lying off Dura when the expedition started: they saw Yussuf-bin-Ibrahim directing affairs, he started with two dhows which were full of armed men, and then went back to the shore in a beliam; they recognize the dhows I have captured as the same two, and know them as belonging to Yussuf. The other witness was actually captain of one of these dhows some years ago, and recognizes them as belonging to Yussuf-bin-Ibrahim.

[1518]

5. The Vali definitely refused to allow me to be present when these witnesses were examined, so as I could not allow them out of my sight; their sworn depositions have now been taken at the British Consulate instead, and I am taking them back to

4. The sworn depositions of seven other witnesses taken at Koweit by Commander Cartwright, have been sent to the Vali, four of these were on shore at Dura when the expedition started, and they were informed by the people present that it was going to attack Koweit, they saw Yussuf-bin-Ibrahim there directing affairs, also Hamoudbin Jermh, nephew of Sheikh Moubarak, Asbi bin Sabab, also a connection, and Ahmed-bin-Mahomet Assousi, whose seal I found in one of the dhows, and who is one of Yussuf's trusted men.

5. There is evidence from the Vice-Consul at Mohammerah of a man named Garib from Manyuhi. He states that one of the prisoners at present in the custody of the Sheikh of Mohammerah, is one of Yussuf him Ibrahim's men, he is a relative of his (Garib's) and tried to cross the river to Dura with another man on the night after the capture, he told Garib he had been paid by Hamoud bin-Jerrah to go and attack

Koweit, and said he was chased and had a fight with British seamen.

6. From the evidence, direct and indirect, there is absolutely no doubt that Yussuf-bin-Ibrahim organized and financed the expedition against Koweit, and that the nephrws of Sheikh Moubarak were also concerned in it. Yusauf is a very wealthy and influential man, and is greatly feared in the country-this is chiefly the reason that it is so difficult to get evidence. Many people have given secret ovidence, but will not give their names or appear, as they are afraid of him.

7. I have heard that there were five Araba killed, and a good number wounded by our fire, and we have heard that some of the wounded are at Dura and other places,

but apparently the Vall has done nothing to get, or use evidence from them.

8. The Vali all through has not only given us no assistance in this matter, but I have reason to believe that he has done his best to prevent the truth coming out, and it is quite evident that no effective action will be taken by him unless he is forced to do so.

O. I do not think we can do saything further here, and it appears to me to be decidedly advisable that this matter abould not be allowed to drop, as not only would we lose a lot of prestige in the Gulf if it were understood that British seamen could be fired at and killed without fear of future punishment, but it would encourage Yuan fbin-Ibrahim to send out other expeditions against Koweit-one of which might easily prove successful—as the chance of getting information of them in time is extremely remote; and it would also encourage piracy in the river which for the time being is

practically stopped.

10. Mr. Wrutislaw, British Consul here, has worked hard in this matter and done all he could to obtain evidence, and to press the Vali to take action, but our efforts in the latter have been quite fruitless, and I hope that now some pressure may be brought

to bear on the Government at Constantinople.

11. I am taking the captured dhows to Koweit, where I will sak Sheikh Mouharak to take charge of them for the time being. I would submit that I might take them to een and sink them, when they are no longer likely to be called for for purposes of the inquiry into this matter.

Vice-Consul McDountl to Lieutenant-Colonel Kemball.

(Confidential.) Dear Colonel.

Mohammerch, November 14, 1902. MY friend Atab has succeeded in opening communications with some of Rin thrabim's men, through a tribesman of his who was with them when the fight with

the "Lapwing" occurred. He reports that three wounded men are in a small village nearly opposite Dura, on this side, and their friends visit them every erening.

They tell the man that Salih-bin-Brahim has now 900 men; he has paid them

well, and engaged them to make an attack on the " Lapwing."

The idea being that, Yusuf being away, if an attack is made they can claim that it is a proof that the original culprits were river pirates, and had now attacked the "Lapwing" out of revenge, and the original men, therefore, were not in Yusuf's

The party to whom the wounded men belong consists of about twelve men under one Khalise; they tell our man that they are willing to come and give evidence if promised forgiveness and guaranteed against arrest or ill-treatment by Turks or

They would go to Bussorah if so guaranteed, and state that they were engaged by Yusef to attack Koweit, and that they fired first on the "Lapwing," and would show a paper proving that they were engaged by Yusuf.

They say not to let Sheikh Khagul know anything, as Mulls Harnes keeps Yusuf

informed of all that goes on here.

I have written all this to Wratislaw, and asked him what he can do, and if he has any money for any expenses if necessary.

We could get the wounded men here, I think, and perhaps then get the karguzar to arrest them; but, if protected, they would give evidence; if arrested, they
